Project Name: Sunrise Prairie Regional Trail Rehabilitation

Project Description:

The Sunrise Prairie Regional Trail south end is an existing 15.5 mile non-motorized trail that lies north and south connecting North Branch, Stacy and Wyoming in Chisago County. To have a more in depth overview see the Master Plan attached. This existing trail connects with the Hardwood Creek trail in Washington County. The Trail includes two bridges over the Sunrise River, was originally paved in 1997 and has served residents and visitors with all the benefits that these trails provide. The trail corridor also has an adjacent unpaved area for winter use, this area is groomed and maintained for snowmobiling by local snowmobile clubs during the winter season. This provide for seasonal motorized recreational use. The Hardwood Creek trail in Washington County, also completed 1997 was repaved in 2014. The Sunrise Prairie Trail is in need of rehabilitation work. The proposed project is to reclaim the existing paved surface incorporating material into the base, then repave with a new bituminous wear course.

Funding Section

Project Cost Breakdown: Reclaim existing pavement into base 89,460 sq. yds @ .75 per sq. yd.-----
\$68,192 Repave with 2.5" bituminous and redress shoulders 15.5 miles @ \$75,000 per mile-----
\$1,162,500 Total Project -----\$1,230,692
