Sugar Loaf ^e	9,464	9,464	18,927	187	119	346	2.9

^a Summer defined as Saturday, May 28, 2022 through Monday, September 5, 2022 (Saturday of Memorial Day weekend through Labor Day)

^b Split Rock Wilds officially opened 7/16/22. Counts took place between 7/16 and 9/5. Traffic estimates reported here are extrapolations for a hypothetical 2022 summer season in which the trails were open Memorial Day through Labor Day. Extrapolation assumes observed traffic between 7/16 and 9/5 accounts for 54% of summer traffic (based on Tioga data).

^c Reference site (Data collected continuously for entire summer season). Data at non-reference sites was collected in short-duration counts (2-4 weeks) and extrapolated to summer-use estimates using the day-of-year factoring method.

^d Directional traffic unavailable. Only total traffic reported.

^e Directional traffic unavailable. 50/50 split is assumed.

^f Bicycle traffic only (collected with pneumatic tube counter)

All counts conducted by Parks & Trails Council of Minnesota using EcoCounter PYROs or TUBES. Unless otherwise noted, counts include pedestrian and bicycle traffic.
