

October 2022

Garvin Park

2022 Summer Campground Visitor Report

PREPARED FOR Greater Minnesota Regional Parks and Trails Commission

BY Southwest Regional Development Commission

About Southwest Regional Development Commission

Southwest Regional Development Commission (SRDC) is a government agency that aims to connect units of government, businesses, and communities with the resources, planning, and services needed to promote and further opportunities in Southwest Minnesota. Since 1973, SRDC has served the nine counties of Cottonwood, Jackson, Lincoln, Lyon, Murray, Nobles, Pipestone, Redwood, and Rock, working with and on behalf of these counties and their communities. Through partnerships and the leveraging of resources, SRDC has worked to lead the advancement of programs and projects in the areas of community, economic energy, transportation, and land use development.

More information about SRDC is available at www.swrdc.org.

About Greater Minnesota Regional Parks and Trails Commission

Greater Minnesota Regional Parks and Trails Commission (GMRPTC) is comprised of 13 members appointed by the governor, two members from each of the six districts and one at-large member. The Greater Minnesota Regional Parks and Trails Commission was created to undertake system planning and provide recommendations to the legislature for grants from the Parks and Trails Legacy Fund to counties and cities outside of the seven-county metropolitan area that have been designated as regionally significant.

More information about GMRPTC is available at www.gmrptcommission.org.

Acknowledgments

This report is a collaborative effort made possible through the input, guidance, support, and work of the following:

- Renee Mattson, Greater Minnesota Regional Parks and Trails Commission
- Joe Czapiewski, Greater Minnesota Regional Parks and Trails Commission
- Rick Anderson, Greater Minnesota Regional Parks and Trails Commission
- Jessica Welu, Southwest Regional Development Commission
- Rosemary Bruce-White, Southwest Regional Development Commission
- Justin Schroyer, Southwest Regional Development Commission
- Brooke Kor, Lyon County Parks

Thank you to the Garvin Park and Lyon County staff and to the Garvin Park Campground Host who interacted with visitors and collected and promoted surveys throughout the summer.

About the Authors

Rosemary Bruce-White has served as a Development Planner for SRDC since 2019. Her work includes comprehensive planning, leading regional economic resiliency planning, and assisting local units of government in transportation, land-use, and solid-waste management planning. She has bachelor's degrees in Economics and Community and Regional Planning from Iowa State University in Ames, Iowa.

Jessica Welu has served as the Communications Specialist/Planner for SRDC since 2018. Her work includes leading the development and implementation of the organization's Comprehensive Communications Plan, and assisting local units of government, non-profits, and businesses with communications, marketing, and outreach planning efforts, as well as working on regional tourism and marketing efforts. She is a Certified Public Communicator through Texas Christian University, has a master's degree in Creative Writing and Literature, and bachelor's degrees in Professional Writing & Communications and Creative Writing & Literature.

Executive Summary

Garvin Park 2022 Summer Campground Visitor Report

About: Garvin Park is located 3.2 miles north of Garvin and 13 miles south of Marshall on MN Hwy 23. The park sits on 700 acres woodlands and steeply sloping hills along the Cottonwood River, which runs through the park. The campground offers 51 sites with electric hook-up and eight primitive camping sites. Garvin Park has been part of the designated Greater Minnesota Regional Parks and Trails System since 2015.

The seven 2022 Campground User Surveys asked respondents to list their favorite campgrounds in Minnesota. Across all surveys, a total of 302 responses were provided. The heat map of favorite campgrounds (right) shows the locations of favorite campgrounds from all seven surveys. It is worth noting that across the board, the majority of respondents' favorites are located in southwestern and south central Minnesota. Many of these campgrounds can be seen as competitors to the seven regional campgrounds in southwestern Minnesota. Of the campgrounds listed, Garvin Park and received most "favorite" responses for regional campgrounds at 61 responses, followed by Plum Creek Park with 49 responses. Lake Washington Park received 22 responses, Hole in the Mountain Park 17 responses, Twin Lakes Park 15 responses, and Ramsey Park 13 responses. There were no responses mentioning Memorial Park.

Top competitors to the seven regional parks were state parks, including Camden State Park (10 responses), Lake Shetek State Park (9), and Itasca State Park (7). Thirty campgrounds in southwestern Minnesota were listed as favorites.

Campground Economic Impact

Less than \$200

Average anticipated spending during visit

Top Spending Categories

#1 Purchasing Camping Supplies

#2 Retail Shopping

#3 Nearby Bars and Restaurants

While most campers, when surveyed, did not plan or budget for spending categories, they were not opposed to spending in these categories. Most, on the other hand, were spontaneous shoppers and were open to spending depending on what was around locally, what the weather was like during their visit, and depending on their mood.

Methodology: In 2022 the Greater Minnesota Regional Parks and Trails Commission (GMRPTC) contracted with Southwest Regional Development Commission (SRDC) to conduct a campground user analysis of seven campgrounds in southwestern Minnesota: Garvin Park, Hole in the Mountain Park, Lake Washington Park, Memorial Park, Plum Creek Park, Ramsey Park, and Twin Lakes Park. The campground user analysis consisted of two survey approaches. Survey collection was open online from May 23-September 13, 2022, with marketing, outreach, and in-person surveys conducted throughout the time period.

For full results and methodology, see the full report.

Introduction

GARVIN PARK is located 3.2 miles north of Garvin and 13 miles south of Marshall on MN Hwy 23. The park sits on 700 acres of woodlands and steeply sloping hills along the Cottonwood River, which runs through the park. The park offers campers and day users the opportunity to enjoy a wide variety of outdoor recreation activities and nature watching all year round. The park and campgrounds are managed by Lyon County staff and a seasonal campground host. Garvin Park was designated as part of the Greater Minnesota Regional Parks and Trails System in 2015.

In 2022 the Greater Minnesota Regional Parks and Trails Commission (GMRPTC) contracted with Southwest Regional Development Commission (SRDC) to conduct a campground user analysis of seven campgrounds in southwestern Minnesota: Garvin Park, Hole in the Mountain Park, Lake Washington Park, Memorial Park, Plum Creek Park, Ramsey Park, and Twin Lakes Park. GMRPTC is responsible for system planning and providing recommendations to the legislature for grants funded by the Parks and Trails Legacy Fund to counties and cities outside the seven-county metropolitan area. The campground user analysis was undertaken to analyze campground usage, camper satisfaction and demographics, and analyze the tourism and economic impact of the campground. Ultimately, this data is meant to help inform planning and marketing efforts by GMRPTC, Garvin Park, Lyon County, and collaborative partners.

The campground user analysis consisted of two survey approaches. The first was a **Past Campground User Survey** developed and marketed to people who have visited any of the seven regional parks in southwestern Minnesota

over the last two years (2019-2021). The second was a **Garvin Park 2022 Campground User Survey** developed and marketed to campground users during the 2022 summer camping season. Survey collection was open online from May 23-September 13, 2022, with marketing, outreach, and in-person surveys conducted throughout the time period. A total of 156 surveys were collected for the Garvin Park Campground User Survey. An additional 19 Past Campground User Survey responses were collected for the park, for a total of 175 user responses. Together, the two surveys provide a snapshot of campground usage and the impact of Garvin Park on local tourism and the local economy.

The survey and campground user analysis were designed to be representative of the summer season, defined as Memorial Day through Labor Day. It is important to note that Garvin Park's campground operating season starts earlier in the spring and ends later in the fall. This report focuses on traditional summer visitors using Garvin Park's campground. While the survey was available to day users, the focus of outreach and in-person survey collection was on campground users. Visitors to Garvin Park during the early spring and fall season, or for other uses, were beyond the scope of this project. As such, readers should understand that this report quantifies only a portion of the park's full tourism and economic impact.

For more details on this project's methods, see our [methodology](#).

Garvin Park: A Snapshot

Garvin Park's campground is split into three main areas: the Lower Campground, Upper

Campground, and Horse Campground. The Lower Campground has fifteen electric sites total. A dump station, shower facility, vault toilets, playground, and wood shed are located in this area. The campground host is also located in the Lower Campground. Eight primitive tent sites are located here.

The Upper Campground has 14 electric sites. There are newer shower/bathroom facilities located at the Upper Campground, plus a playground.

The Horse Campground has 22 electric sites. There are 11 paddocks available for horses on a first come, first serve basis, along with numerous tie-outs. There are vault toilets located in this area. Campers in this area can use the shower/bathroom facilities located in the Upper Campground.

Ten electric sites are reservable online through the Lyon County website (five at the Lower Campground and five at the Horse Campground), plus three primitive tent sites. All remaining 41 sites plus the primitive tent sites are available by first come, first serve, self reservation. A camping registration pay tube is located at the information stands at the entrance to each campground area. On Fridays and Saturdays either Lyon County staff or Campground Hosts go through and register all the campers. The park allows up to 14 nights of consecutive stay.

Five picnic shelters are available on a first come, first serve basis. Additionally, the Park Lodge, located on top of the tubing hill can be rented for day use.

CAMPING RATES

Electric Sites: \$18/night

Primitive Tent Sites: \$5/night

Accessing Garvin Park

Garvin Park is located 3.2 miles north of Garvin and 13 miles south of Marshall on MN Hwy 23. The main entrance to the park is located on MN Hwy 23. A second entrance is located on County Road 69. Wayfinding signage is easy to spot and the park is easy to access. Hwy 23 is a main trunk highway with a high volume of daily traffic.

Unique Features

The park sits on 700 acres of woodlands and steeply sloping hills along the Cottonwood River, which runs through the park. The park is filled with deep ravines, and steeply sloping hills and offers day users and campers a wide variety of outdoor activities to enjoy year-round, from wildlife watching to trail hiking, disc golf, tubing, and hunting (seasonally). The park is well known for its equestrian usage, with several miles of horse trails available. Several miles of hiking trails also roam through the park. Fishing on the river is a popular activity. The park also offers five picnic shelters and several playgrounds.

Garvin Park's proximity to MN Hwy 59 and MN Hwy 14 (1.5 miles south) makes for a unique opportunity to attract visitors off of two high-traffic truck highways. Visibility of the park on Hwy 59 and wayfinding signage on both highways provide Garvin Park high visibility.

Within 15 miles of the park visitors can access multiple restaurants, museums/historic sites, Camden State Park and Camden Regional Trail, City of Marshall bike trails, shops, and tourist destinations. Within 20 miles of the park is the Laura Ingalls Wilder Museum and Pageant, Lake Shetek State Park, End-O-Line Museum, and several small cities.

Methodology

Overview

The Garvin Park user analysis consisted of two survey approaches. The first was a **Past Campground User Survey** developed and marketed to people who have visited any of the seven regional parks in southwestern Minnesota over the last two years (2019-2021). The second was a **Garvin Park 2022 Campground User Survey** developed and marketed to campground users during the 2022 spring-fall camping season. Data in this report is drawn from both complimentary surveys during the summer of 2022 with the survey collection open from May 23 to September 13.

SRDC attempted to conduct kick-off and close-out meetings with Garvin Park's designated contact (Lyon County staff) prior to and following survey collection. These meetings were used with the seven campgrounds to determine best approaches to survey outreach and collection, as well as to gather registration data available from previous years and from the 2022 summer camping season. Lyon County staff were unable to attend either scheduled meeting and a written response was provided to SRDC questions on May 18, 2022, that functioned as the kick-off discussion. Written responses were provided to SRDC questions on October 10, 2022, that functioned as the close-out discussion. SRDC provided weekly/bi-weekly email updates to Lyon County staff on survey progress and provided communications prior to each campground visit throughout the survey collection period.

The survey and campground user analysis were designed to be representative of the summer season, defined as Memorial Day through Labor Day. Focusing on summer campground users coincides with the park's peak visitation season and ensures comparability with other visitor

studies conducted in regional and state parks across Minnesota. It is important to note that Garvin Park's operating season goes beyond this period.

This report focuses on traditional summer visitors using Garvin Park's campgrounds. While the survey was available to day users, the focus of outreach and in-person survey collection was on campground users. Visitors to the park during the early spring and fall season, or for other uses, were beyond the scope of this project. As such, readers should understand that this report quantifies only a portion of Garvin Park's full tourism and economic impact.

Campground User Estimates

Campground user estimates were collected using registration information and campground capacity as provided by Lyon County staff.

At the beginning of the season, SRDC estimated a full capacity rate of the campground for the 16-week summer season of 944 visits, given each site was rented by one user group each week. SRDC aimed to have 189 responses for the season, a response rate of 20% of the pre-season capacity estimates.

End of the season reservation numbers were provided by Lyon County staff for the 59 sites between May 16-September 11, 2022. For the park's 10 reservable sites, a total of 488 reservations were made. For the park's first come, first serve sites, a total of 454 reservations were made.

This makes a total of 942 visits from May 16-September 11, 2022, in line with pre-season estimates. The weekly average visit rate was 55.4. Given the survey period was 16 weeks versus the 17 weeks of total reservation

numbers provided, the end of season campground user estimate is 887 (55.4*16, rounded). It is important to note, however, that reservation totals include visitors with multiple visits to Garvin Park. From visitor responses and observations, many campground users visited Garvin Park more than once during the summer season. Unique visitor numbers were not available.

Survey Development

SRDC attempted to conduct kick-off and close-out meetings with Lyon County staff as well as GMRPTC during survey development. These meetings were used to determine best approaches to survey outreach and collection, as well as to gather registration data available from previous years and from the 2022 summer camping season. Lyon County staff were unable to attend either scheduled meeting and a written response was provided to SRDC questions on May 18, 2022, that functioned as the kick-off discussion.

The survey was designed through a collaborative process with GMRPTC, SRDC, and Lyon County staff. SRDC reviewed previous trail surveys conducted through GMRPTC and made recommendations to align questions with trail user surveys. Whenever possible, questions were designed to collect data that is comparable to visitor survey data collected previously through GMRPTC, by the Metropolitan Council, and the Minnesota Department of Natural Resources.

Prior to finalizing the survey, the survey was reviewed by GMRPTC and tested by SRDC. The final Garvin Park 2022 Campground User Survey was 23 questions long, plus seven additional demographic questions. Question topics included overall campground satisfaction, campground activities, camping characteristics, trip planning, information

sources, and demographics. On average, online respondents took 3-5 minutes to complete the survey. The final Past Campground User Survey was 15 questions long, plus seven additional demographic questions.

Survey Outreach

The previous user survey was marketed using only online resources, including SRDC's website and social media, and shared collaborative partners' websites and social media pages.

The Garvin Park 2022 Campground User Survey was available to visitors in printed form or electronically. At the start of the survey collection period, paper surveys were placed at the park's information kiosks at the Lower Campground, Upper Campground, Horse Campground, and hilltop parking lot near the MN Hwy 59 park entrance. Drop-off locations for surveys were in the pay tubes located at each of the information kiosks at the three campground areas. Flyers encouraging survey participation were placed on the four information kiosks, in the Lower Campground's men's and women's bathrooms, in the Upper Campground's shower rooms, and on the outside of the bathrooms in the Horse Campground. Flyers were also placed at the picnic shelters (see Special Circumstances for further information on flyers).

The electronic survey was marketed through flyers with a scannable QR code and survey

Figure 2. Outreach Materials

link and on business card-size handouts with scannable QR code and survey link. The survey was also marketed on SRDC's website and social media, and through the County's website. The survey, however, was not marketed through the Lyon County social media page which has 1.5 thousand followers, a missed opportunity for survey outreach. Survey outreach was conducted on SRDC's social media four times and shared 55 times.

Survey Collection

In-person surveys were conducted by SRDC staff. Survey participation was limited to one adult (18 years of age or older) per camping group as the group responder. A camping group was defined as anyone staying at the responder's reserved campsite during the visit. A visit was defined as the total extent of the camping group's stay at Garvin Park, from registration to check-out. It is worth noting that some participants did note multiple visits within the 2022 summer season. These participants were asked to limit their response to their current or most recent visit. Campers, however, were not limited to only taking the survey once during the 2022 summer season.

When sites were approached with groups of people, SRDC confirmed the number of sites being reserved with the group and asked one member of each reserved site to complete the survey.

SRDC walked the campground during each visit and approached each campsite and visitor to conduct individual surveys. Visitors were each greeted and informed that the survey was being conducted in partnership with GMRPTC and Garvin Park to assist with understanding campground usage and to help the park get further funding for future projects. Visitors were asked if they had a few minutes to take the survey with SRDC staff verbally. Printed surveys

were provided to those who chose to self-administer the survey. SRDC conducted verbal surveys by reading survey questions verbatim and recording responses on the printed survey. All visitors were assured their participation was voluntary and that surveys were anonymous.

In instances where there were campers or tents at sites but no adult present outside the camper/tent, SRDC left a printed survey under windshield wipers of vehicles or placed securely on picnic tables. Handwritten notes were left on the top of the printed surveys on how to turn in completed surveys. In instances where visitors declined to participate SRDC asked if they could provide them with a card with the QR code in case they had time later to take the survey. There were two noted declines during SRDC's in-person visits.

Survey Dates, Times, & Completions

At the start of the survey collection period, four in-person collection times were planned throughout the summer season during key times when the campground typically experienced high usage. These key times were set for near Memorial Weekend, Independence Day, Labor Day, and a weekend of high reservations. An additional two visits were added mid-season (see [Special Circumstances](#) for details).

Response Rate

Figure 3. Survey Dates, Times & Collections

Date	Day	Time	Hours	Completed
6/18/22	Saturday	10am-12pm	2	10
7/14/22	Thursday	2pm-2:30pm	.5	2
8/13/22	Saturday	12:30pm-2pm	1.5	9
9/2/22	Friday	2:30-3:15pm	.75	5
9/2/22	Friday	6:30-7:15pm	.75	4
9/11/22	Sunday	10:30-11am	.5	4

To receive a statistically representative survey response rate, SRDC established a response rate goal of 20% of total campground reservations for the season. SRDC aimed to have 189 responses for the season, a response rate of 20% of the pre-season capacity estimates. Mid-season, the targeted response rate was adjusted to 15% of pre-season capacity estimates (see [Special Circumstances](#) for more information).

At the end of the season, it is estimated that a total of 887 reservations were made for Garvin Park during the 2022 survey period (see [Campground User Estimates](#)). Of those 887 reservations, 156 campground users completed the Garvin Park Campground User Survey, for a response rate of 17.6%.

An additional 19 Past Campground User Survey responses were collected for Garvin Park for a total of 175 Garvin Park user responses.

Of the 156 responses from the Garvin Park 2022 Campground User Survey, five were collected via the electronic survey link (3.2%). Thirty-four were collected verbally during in-person visits (21.8%). The other 117 responses were collected from printed surveys left at sites during in-person visits and from campground hosts handing out and collecting surveys (75.0%).

Special Circumstances

There were a couple of unanticipated circumstances during the survey period which affected the survey response rate, survey responses, and survey methodology. The first, and the one that had the biggest impact was the early season weather.

Memorial weekend brought strong storms to the area with damaging winds, downing trees and causing difficulties for camping and outdoor recreation in the area. Garvin Park received heavy damage. Portions of the park were closed

to camping during the first part of June as a result of the storms. Additionally, horse and hiking trails received significant damage that made some of the trails unpassable for several weeks and had a lasting effect on trail quality for the season. Many survey respondents spoke to issues with trail accessibility and usability during in-person visits and in written survey responses. During in-person visits, when trail conditions were mentioned, SRDC noted the spring storm damage. Many of the visitors SRDC talked to were not aware of damage being caused by storms and when told, were more understanding of trail conditions. One group at the Horse Campground even mentioned going to purchase their own handsaw to clear their own path through the trails during their visit. Due to the storms, the first in-person visit was delayed by three weeks.

Another unanticipated circumstance which affected the survey response rate was the visibility and access of the survey at the park. Due to the park's natural landscape, cellular signal can be difficult. As such, going into the survey period, SRDC was aware of the need to have several flyers and access to the printed surveys throughout the park, as it was doubtful that many visitors would take the survey online from the park. At the start of the survey period, flyers were placed on all information kiosks, along with printed surveys, and flyers were also placed at all bathrooms and picnic shelters in order to be most visible. During in-person visits, flyers were often missing from bathrooms and picnic shelters, and were replaced throughout the season during visits.

The campground host assisted with handing out and collecting surveys in the Lower Campground. During in-person visits, Lower Campground visitors almost always had already received the printed survey from the campground host. In the Upper Campground and Horse Campground, however, most had

not heard about or seen the survey. As a result, SRDC made changes to the survey collection protocol. During in-person visits, SRDC would focus on the Upper Campground and Horse Campground for verbal surveys. The Lower Campground would be visited last, and surveys collected from the campground host when there. If the campground host wasn't there, SRDC would check with campers in the Lower Campground to see if they had completed the survey and collect the survey from campers then.

Special circumstances with the Past Campground User Survey included the respondents' most recent visits. For the nine respondents who indicated they had visited Garvin Park between 2019-2021 and provided dates of their last visit, seven respondents noted that their most recent visits were in 2022. It is worth noting that there is no way of knowing whether these respondents took the Garvin Park 2022 Campground User Survey as well or

if they took only the past user survey. To ensure that data was not skewed, the past user survey analysis has been kept separate from the 2022 summer survey analysis.

Data Analysis

Survey data was downloaded from the SurveyMonkey server and analyzed in Microsoft Excel. The report is split into two sections: an analysis of the Garvin Park 2022 Campground User Survey and an analysis of the Past Campground User Survey responses that indicated previous visits to Plum Creek Park since 2019. Throughout this report, unless otherwise specified, the word "average" refers to the response sample's median average rather than mean average. Responses to open-ended questions were loosely tagged and categorized. Responses are provided in the Appendices.

Visitor Demographics

Participants from the Garvin Park 2022

Summer Survey spanned from ages 18-75+.

The average adult survey participant was between 45-54 years old (Median = 49.5). The most common age groups for participants were 35-44 (39), 55-64 (37), 25-34 (24), and 65-74 (20). Five participants preferred not to answer and four skipped the question.

While the survey did not ask for the age of children (under 18 years old) within the participant's camping group, 210 children were part of respondent camping groups, with a median of two children in groups camping with children. Just under half of the survey respondents (44.6%) indicated that their camping group included children. Of those camping with children, 19 reported camping with one child, another 19 reported camping with two children, eight with three children, five with four children, five with five children, and seven with six or more children.

Overall, the age breakdown of participants speaks to the park's ability to attract visitors across a wide range of ages and to attract families.

The gender identity of the survey respondents was split, with 73 identifying as male (47.7%) and 72 identifying as female (47.1%). One respondent identified as non-binary (0.7%), and seven responded other/preferred not to answer (4.6%). Three survey participants skipped the question.

The significant majority of respondents identified as White/Caucasian, with 136 of 154 responses (88.3%). Five respondents identified as two or more races (3.3%), and

Figure 4.

Participants by Age

Q30: How old are you? (Responses: 152)

Figure 5.

Participants by Gender

Q31: What is your gender identity? (Responses: 153)

one respondent each identified as Black/African American, Hispanic/Latino, Asian/Asian American, American Indian/Alaska Native, and another race (0.7% each). Eight respondents preferred not to answer, while two skipped the question. One respondent reported tribal affiliations with the Leech Lake Band of Ojibwe and one with another tribe not listed in the survey options.

The majority of respondents identified English as the language mainly spoken at home, with 146 of 152 responses. Three respondents identified Spanish as the language mainly spoken at home (2.0%), and one identified Karen as the language mainly spoken at home (0.7%). Two participants preferred not to answer, while four skipped the question.

Garvin Park survey respondents, on average, reported household incomes above the state and national averages. The median household income (before taxes) of respondents was between \$80,000-\$89,000, compared to the statewide median of \$73,382 and

national median of \$64,994.* The majority of respondents (67.0%) reported annual household incomes of \$70,000 or higher. Of those, 31 respondents (32.0%) reported incomes of \$100,000 or more. Ten respondents (10.3%) reported incomes of \$39,999 or less, including four (4.1%) at less than \$20,000 in total household income before taxes. Fifty-three respondents preferred not to answer, and an additional six skipped the question.

Q24: How do you describe yourself? (Responses: 154)

Figure 8.
Participants by Annual Income

Q28: Please indicate your total household income before taxes. (Responses: 150)

The educational attainment level of participants was slightly below the state average, with 33.6% of respondents (46) having a bachelor's degree or higher, compared to 36.8% statewide. ** Forty-two respondents (30.7%) had an associate or vocational degree and 20 respondents (14.6%) had some college but no degree. Twenty-six respondents (19.0%) graduated high school or equivalent, while three respondents (2.2%) did not graduate high school. Fifteen respondents preferred not to answer and four skipped the question.

Twenty-four respondents (15.8%) reported having a member of their camping group with a physical, mental, or sensory disability/condition, above statewide estimates of 10.9% of the population. ** Six preferred not to answer and four skipped the question.

Q30: What is the highest level of education you have completed?
(Responses: 152)

Campground Experience

Survey participants were asked about their experiences at Garvin Park during their visit, including the reservation process. It is important to note that at the beginning of the camping season, Garvin Park was impacted by high-speed wind events that caused the lower campground to be closed Memorial Weekend and for the next week, and was slow upon reopening.

Overall, the reservation process went relatively smoothly, as 76 respondents (53.9%) stated that the process was either “somewhat easy” or “very easy”. Seventeen of the respondents (12.1%) stated the reservation process was “okay.” Only ten respondents (7.1%) noted that it was “somewhat difficult” or “very difficult.”

Thirty-eight respondents provided additional feedback about the reservation process. Of these responses, 25 stated that they did not reserve their sites but opted to use the first come, first served sites. Eleven comments noted issues with the website and having to get ahold of the campground host or county staff to help solve the issues. These comments included that the site was unclear on what spots were and were not reserved, being unsure if “trailer” meant camper trailer, missing the old Reserve America campground reservation platform, and wanting sites to link together to prevent double booking. One person mentioned that the site they reserved was not level enough, so they canceled their reservation and chose another site.

Most respondents found their site to be accessible. Only nine respondents of 147 (6.1%) reported issues accessing their sites. All nine of these responses offered feedback as to why

Figure 9.

Reservation Process

Q20: How was the reservation process? (Responses: 141)

Figure 10.

Were There Issues Accessing the Site?

Q7: Did you have any issues accessing your campsite? (Responses: 147)

they had issues. Three mentioned that there was confusion in knowing where to check in, and one mentioned that the site reserved online did not match the site number upon arrival. Two respondents mentioned sites being double booked, and two mentioned that there were tree branches in their way when pulling in. There was one comment that the camper’s site was not level.

Respondents ranked their satisfaction with the campground amenities, including campsites, bathrooms/showers, campground upkeep, electric hook-ups, playgrounds, and shelters/picnic tables. To better understand how campers felt about each amenity, satisfaction was ranked as very dissatisfied (1), slightly dissatisfied (2) okay (3), slightly satisfied (4), and very satisfied (5). By assigning a numeric value to respondent satisfaction, average satisfaction scores were determined for each feature.

Overall, campground amenities were highly ranked, with the highest ranked feature being the electric hookups and campground upkeep, both being ranked at 4.8. Campsites and campground staff were both ranked at 4.7, followed by the playgrounds and shelters/picnic tables that ranked at 4.5. Bathrooms/showers were the lowest ranked feature at 3.9.

It was noted during in-person survey collection that responses to bathroom/shower quality greatly depended on the location of the survey respondent's site. This is because the Upper Campground bathroom/showers have been remodeled recently, and those staying in this campground were more satisfied with the bathroom/showers. Those that stayed in the Lower Campground with the older bathrooms/shower were less satisfied with the bathroom/showers. This campground feature also had the widest spread of responses regarding camper satisfactions, with 26 respondents either “very dissatisfied” or “slightly dissatisfied” with the bathrooms/showers (17.8%), 14 respondents ranked bathrooms/showers as “okay” (9.5%), 26 respondents ranked them as “slightly satisfied” (17.7%), and 62 ranked them as “very satisfied” (42.2%).

When asked about amenities that would make their overall experience better, 115 respondents offered input. Thirty-seven of these comments mentioned bathroom upgrades and maintenance. Comments included wanting the other restrooms/showers at the park to look more like those near in the Upper Campground, wanting a flushing toilet near the larger playground, wanting showers at the Horse Campground, wanting showers to have longer timers before they shut off, and requesting fixes

Figure 11.

Satisfaction With Campground Amenities

Q16: Overall, how would you rate your experience with the following park features? (Responses: 152)

to broken features such as a missing door in the men's bathroom, and wanting to increase the number of times the bathrooms/showers are cleaned. Twenty-three comments mentioned access to water and sewer hook-ups at the sites.

There were 12 responses that mentioned playgrounds, which included a request for a playground at the Upper Campground, an updated playground at the Lower Campground, and lighting at the playgrounds. Additional comments included wanting traffic slowed down near the playgrounds.

There were eleven comments regarding the campsites themselves. Half of those comments mentioned that they wanted to see more level sites. The rest of the campsite comments included smaller fixes such as missing a fire ring, and improvements to electrical hook-ups (more amps). A few comments mentioned specifically the R5 campsite as being the only site with electric hook-ups on the left side and not knowing this until arrival. A few comments mentioned wanting more sites available.

Trails and wayfinding/signage in the park were mentioned by 13 respondents. Comments included cleaning up trails and wanting more trails, need for better trail signage marking where people are, printed trail/park maps available at information kiosks, and adding maps to the trails. Another comment mentioned needing better signage for where to get water at the park.

Additional amenities for the horse camp were mentioned by several respondents, including adding horse obstacles, more pens/corals as these fill up quickly on weekends, leveling areas where horses are tied to poles, and better upkeep to the horse trails.

General comments about the park were also provided. There were eleven comments from

respondents that wanted better cell or wifi coverage. Additional comments included better lighting throughout the park, wood staging places at all three campgrounds instead of just one, and adding a place to purchase small supplies at the campground. Comments also noted that cleaning of the picnic shelter by the Upper Campground/Horse Campground was needed, noting that it was covered in bird feces and couldn't be used because of the uncleanness.

Survey participants were asked about the activities they did or planned to do at Garvin Park during their visit. Walking/hiking ranked number one with 86 responses (60.1%). Trail riding by equestrian users was second with 52 responses (36.4%), followed by "other" with 25 responses (17.5%), disc golf with 23 responses (16.1%), and events at the campground with 20 responses (14.0%). Out of the "other" responses, there were seven comments that mentioned relaxing and socializing with friends and family. Five comments mentioned taking children to the playgrounds, three comments mentioned mountain biking or taking their bike to Marshall, and two comments mentioned water activities.

Figure 12.

Campground Activities

Q23: Which of the following campground activities have you or your group done or plan to do during your visit? (Select all that apply) (responses: 143)

Camper Characteristics

Of the Garvin Park visitors who participated in the survey, almost all were campers. Two respondents were day users (1.9%), while the other 153 were campers (98.7%). There was one noted seasonal camper.

Camping groups were defined in the survey as anyone staying at the responder's reserved campsite during the visit. For all campsites surveyed, the average camping group size was two people, with the largest reported group size of 45 people. This indicates that although respondents were asked to refer to their site only when filling out the survey, they may have included neighboring sites if at the campground for a group event such as a family reunion or trips with friends. This became more evident as eight separate respondents noted ten or more people in their camping group (5.2%). Although typical RVs and campers can hold 4-7 adults overnight, it was noted that many sites included tents along with RVs and campers, meaning a site could have been housing closer to 10-12 people overnight. When totaling the average group size, the response of 45 people was excluded, alongside another response of 30-40 people.

Sixty-six respondents stated that they were camping with children (44.6%). Of those groups camping with children, the average was 3.3 children per camping group. Nineteen respondents camped with either one or two children (28.8% each), eight camped with three children (12.1%), five camped with either four or five children (7.6% each), and seven camped with six or more children (10.6%). The largest reported amount was 19 children reported in one camping group. These numbers should also include the considerations mentioned previously

Figure 13.

Group Size & Composition

2.0 Average Camping Group Size

Percent of all group responses

Alone	12 7.8%
2 People/group	58 37.7%
3 People/group	25 16.2%
4-5 People/group	27 17.5%
6+ People/group	28 18.2%

Of camping groups included children under 18 years old

3.3 Average children in camping group

Q4: How many people are camping in your group during this visit? (Responses: 154)

Q5: Are you camping with children (under 18 years old)? (Responses: 148)

when reporting average group size.

The majority of campers stated that they planned for their trip less than one week in advance with 60 responses (39.2%), followed by 32 respondents that planned for their trip 2 months or more in advance (20.9%), 23 that planned 1-2 weeks in advance (15.0%), and 19 respondents each who planned for their trip for 3-4 weeks and 1-2 months in advance (12.4% each).

The average length of stay, excluding the day visitors, seasonal campers, and dates that were unclear (six altogether) was 2.7 days.

When asked how frequently survey participants camped in Minnesota from May 1st- October 31st, most campers responded that they camped in Minnesota at least once a month with 135 of 152 responses (88.8%). The most common response was 2-3 times a month at 75 responses (49.3%), followed by once a month with 46 responses (30.3%). Ten respondents reported that they typically camp once per season in Minnesota (6.6%), making their Garvin Park trip likely the only camping experience in Minnesota in 2022. Seven campers reported that Garvin Park was their first camping experience (4.6%).

Most survey respondents chose to camp in a pull-behind camper trailer, with 118 responses (79.7%). Recreational vehicle camping was the second most popular choice with 19 responses (12.8%), followed by tent camping with 16 responses (10.8%).

Participants were asked if they rented any equipment for their visit, such as renting a camping trailer or recreational vehicle. Of the 152 responses, no one was renting or planning to rent equipment during their visit.

Figure 16.
Camping Style

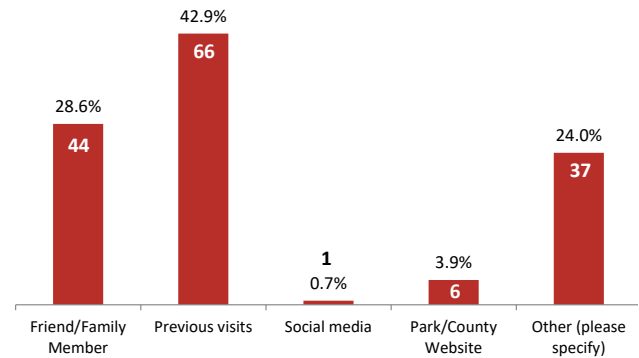

Q6: How are you camping during your visit? (Select all that apply) (responses: 148)

When asked how campers learned about Garvin Park, 42.9% of survey respondents noted that they were returning Garvin Park users, with 66 respondents noting they knew about the campground from previous visits. Other responses when asked how visitors learned about the campground included referrals from friends/family members at 44 responses (28.6%). Only seven respondents (4.5%) noted that they learned about the campground from social media or a park/county website. Thirty-seven respondents noted reported “other” (24.0%).

Of the “other” responses, 28 mentioned being a local resident and knowing of the campground since they were young children. Three mentioned using a Google search, and one mentioned the RV Trip Wizard App/Map.

Figure 17.

How Campers Learned About Park

Q19: How did you first learn about this campground? (Responses: 154)

Campground Tourism

The majority of survey participants at Garvin Park were local visitors. Of 154 survey respondents that provided home zip codes, 112 of them were from within a 50-mile radius of Garvin Park (72.7%). This includes one visitor from South Dakota.

Forty-two respondents were tourists (27.2%). For this report, a tourist is defined as someone who is visiting from 50 miles or more away from their home zip code. Of the tourist segment of respondents, 18 were from within the state of Minnesota (42.9%). Seven were from the St. Cloud and Twin Cities area (16.7%). Five were from the Mankato area (11.9%), and two from near Alexandria (4.8%).

For out-of-state tourists, twelve were from South Dakota (28.6%), four were from Iowa (9.5%), and two were from Wyoming and Texas (4.8%). One tourist came from each of the following states: Louisiana, Texas, and Nebraska.

The survey also asked respondents about activities or places their camping group had or planned to visit locally during their stay.

The survey asked about three types of local attractions: 1. Events/Activities, 2. Parks & Trails, and 3. Museums/Historical Sites.

For events and activities, 29 respondents indicated that they planned to attend a local event or activity (19.0%). Of these responses, Tracy Box Car Days and a nearby golf tournament were mentioned by four respondents each. Two respondents mentioned going to the Laura Ingalls Wilder Museum and the Lyon County Fair. Other events mentioned included friend/family events such as a birthday party or family reunion, going to the movies, the Murray County Draft Horse Show, and the Fagen Air Show in Granite Falls.

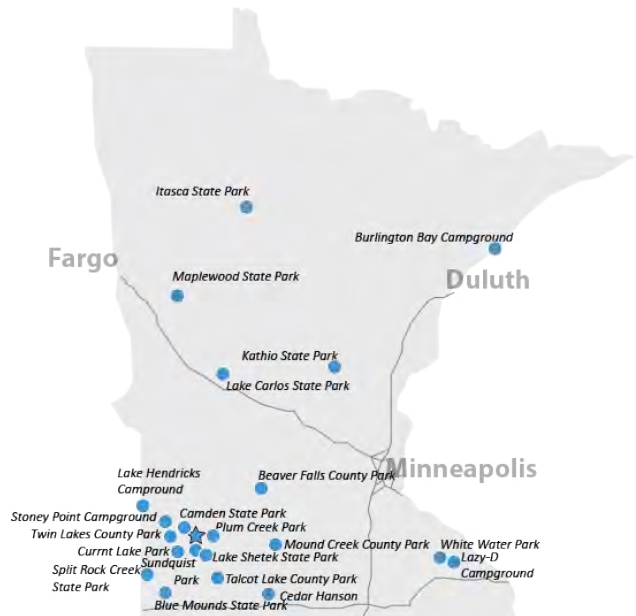

For nearby Parks and Trails, 37 respondents indicated that they intended to visit a park or trail (24.2%). Twenty-three respondents stated that they were going on the trail within the park, and nearly half stated that they planned to go on the horse trails at Garvin Park. The remaining responses called out visiting Lake Shetek State Park, Swift Lake Park, and Twin Lakes Park.

Respondents were asked to provide their favorite campgrounds in Minnesota as a way to compare user interest and expectations.

Garvin Park respondents provided 94 responses, noting 21 different campgrounds in Minnesota. Of these responses, 60 identified Garvin Park as their favorite campground (63.8%). Plum Creek Park was mentioned by seven respondents (7.4%), followed by Lake Shetek State Park with four responses (4.3%), and Camden State Park with three responses (3.2%). Sundquist Park at Lake Sarah in Murray County, Mound Creek County Park, and Kathio State Park, each received two responses.

Figure 20.

Favorite Campground in Minnesota

Q21: Do you have a favorite campground in Minnesota? (Responses: 146)

Of the favorite campgrounds provided, 13 are located within fifty miles of Garvin Park (Camden State Park, Current Lake, Lake Hendricks Campground, Lake Shetek State Park, Plum Creek Park, Twin Lakes Park, Beaver Falls State Park, Blue Mounds State Park, Mound Creek County Park, Split Rock Creek State Park, Stoney Point Recreation and Campground, and Sundquist Park). These 13 parks can each be considered competitors of Garvin Park due to their proximity.

The remaining favorite campgrounds were scattered throughout the state and included Cedar Hansen, White Water, Kathio State Park, Burlington Bay Campground, Lake Carlos State Park, Itasca State Park, and Maplewood State Park.

Campground Economic Impact

When measuring the economic impact of campgrounds and their users within a community, traditional methods used for analysis do not account for the entire campground experience. Typically, when tourists are visiting a location for an event or vacation, they are looking for accommodations (such as hotel or Airbnb), purchasing food for all their meals at the destination, and going to specific sites or events. Groups that are going to campgrounds are typically paying for their campsite (which typically costs a fraction of most other accommodations) and attempting to purchase all their supplies and food ahead of arriving at the campground so that they can cook at the campground. Due to these reasons, tracking expenditures at local bars/restaurants, events/activities, camping supplies and equipment rentals did not assist much in telling the entire story of the campground experience.

For Garvin Park campground users, when asked how much they planned to spend on these categories, the most popular response

was less than \$25.00, which included several responses stating that respondents did not plan on spending anything in these categories. The category that received the highest budgeted responses from respondents was purchasing camping supplies. Thirty-five respondents anticipated spending \$26-\$50 on camping supplies (24.0%), eleven anticipated spending \$51-\$100 (7.5%), six anticipated \$101-\$200, and another five anticipated spending more than \$200 on camping supplies (3.4%).

The second highest budgeted category was retail shopping, which could go hand-in-hand with purchasing camping supplies. Thirteen respondents anticipated spending \$26-\$50 on retail shopping (8.9%), eight anticipated spending \$51-\$100 (5.5%), nine anticipated spending \$101-\$200 (6.2%), and three anticipated spending more than \$200 on retail shopping (2.1%).

The lowest budgeted for category was equipment rental, with only two respondents

Figure 21.1

Anticipated Spending During Visit

Q9: How much do you plan on spending on the following? (Responses: 152)

anticipating spending over \$25 (1.4%).

When asked about their overall budget planned for the camping trip (excluding transportation costs), most respondents planned to spend less than \$200 total (115 responses or 76.2%). Twenty-eight respondents planned to spend between \$200-\$400 (18.5%), and only eight respondents planned to spend over \$400 during their trip (5.3%).

One thing noted during the in-person survey collection is that campground users typically considered their budget to only consist of the site itself and that the budgeted expenditure applies to survey respondent's current campground visit only. During in-person visits, many campers noted plans to travel from Garvin Park to another campground following their visit. For campers that are touring the area and plan to stay at multiple parks, this data does not create an accurate picture of their trip spending habits. It's also important to note that most respondents were local visitors and most planned to stay for the weekend only. However, these visitors are also often frequent visitors to Garvin Park. While budgeted expenses might be low for this trip, a number of factors are missing when understanding the economic impact of

local visitors. Many could be spending a large amount at one time to use seasonally or for multiple trips.

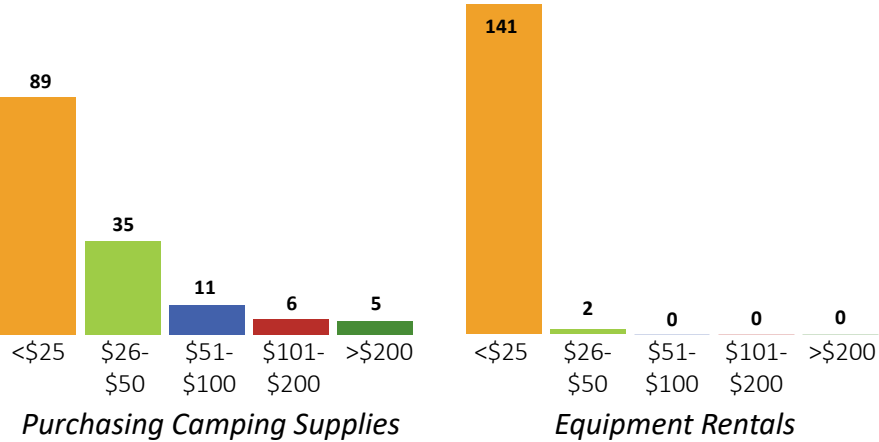

Notes gathered from both the in-person survey collection and the collected surveys included that in general, survey respondents were not opposed to spending money on any of the above-mentioned categories, rather they had no plans to. For local visitors, follow-up responses were often, "it depends on the weather," or "we'll see where the mood carries me." For tourists, follow-up responses were often seeking recommendations on places in the area.

◀ Past Campground User Analysis

In an attempt to gather more information on campground user experience for each of the campgrounds, a past user survey was conducted for seven of the GMRPTC parks in southwestern Minnesota: Garvin Park, Hole in the Mountain Park, Lake Washington Park, Memorial Park, Plum Creek Park, Ramsey Park, and Twin Lakes Park. The survey was intended for users who camped or visited the campgrounds between 2019 and 2021; only two of the respondents who noted their last visit to Garvin Park visited prior to the 2022 camping season. All other respondents noted visiting dates during summer 2022.

Out of the 34 past campground user responses, 19 respondents (55.9%) stated that they had visited Garvin Park since the 2019 season. Out of these 19 responses, 11 indicated they were day users only (57.9%), while eight indicated they camped at Garvin Park (42.1%). Of those that camped, two camped in a tent, while all others stayed in a camper trailer. The average length of stay was 2-3 days, and the majority of respondents (90%) camp at least once a month in Minnesota.

When asked how likely survey respondents were to return to the park in the next two years to camp, 70% had either planned to or had already reserved a camping site for this camping season. Three respondents noted that they would like to revisit the park but did not yet have plans to do so. Additionally, 14 respondents said they have or would recommend Garvin Park to friends or family.

When asked if the respondent had a favorite campground in Minnesota, 10 respondents

provided comments on their favorite campgrounds. Plum Creek Park, Lake Sarah, Memorial Park, and Norwegian Creek Park in Lake Benton were the three parks noted that are within 50 miles of Garvin Park, making them competitor parks. Other parks noted were: Arco Park, Tettegouche State Park, Sibley State Park, Vicksburg County Park in Delhi, and Indian Point Campground in Duluth.

Respondents were asked to rate their overall campground experience on a scale of 1-5 with five indicating a perfect experience. Seven respondents ranked it a 5, seven ranked it a 4, and four ranked it a 3, for an overall average rating of 4.2. When asked to rank their overall satisfaction with the campground amenities, the highest ratings were for the campground staff at 4.9. Electric hook-ups were ranked 4.8. Campground upkeep and shelters/picnic tables were rated 4.6, followed by playgrounds at 4.5. The reservation process and campground accessibility were ranked 4.3 and the campsites were ranked 4.1. Bathrooms/showers had the lowest rating at 3.5, matching Garvin Park 2022 Campground Survey respondent ratings. Bathrooms/showers had three rankings of slightly or very dissatisfied. Campsite

Figure 23.

Overall Satisfaction with Campground

Q2: How would you rate your overall experience with the parks you have visited? (Responses: 18)

accessibility had one ranking of very dissatisfied. No further information regarding these rankings is available.

When asked what additional amenities they'd like to see at the parks, online reservations and more sites reservable online were mentioned twice. Bathrooms/showers were mentioned three times, with specific comments on the Lower Campground's needing updating and on more frequent cleaning. Rentals such as geocaching, kayaks, and snowshoes was mentioned, along with wanting a swimming place at the park.

When asked about activities that the previous campground users participated in while at Garvin Park, the most popular responses were walking/hiking (18), sightseeing (nature) (9), and fishing (7). When asked what local things respondents did during their visit, popular responses were visiting nearby events/activities, visiting nearby parks/trails, and visiting nearby bars/restaurants with five responses each. These responses showcase that although not budgeted for or planned, visitors do tend to visit, and likely spend money locally at events, restaurants, and other local businesses.

Past User Demographics

All respondents described themselves as white/Caucasian and identified English as the main language spoken at home. Three respondents (20%) reported having a physical, mental, or sensory disability/condition.

Total household incomes before taxes were divided amongst the 16 that answered, with four respondents reporting incomes of \$100,000-\$149,999, three respondents reporting incomes of either \$50,000-\$59,999 or \$70,000-\$79,000, and one respondent each reporting incomes of either \$40,000-\$49,999 or \$60,000-\$69,999. The majority of respondents had a higher level of education than the state average, with 11 out of 16 having a bachelor's degree or higher (75%).

The majority of respondents (9) were between 35-44 years old. Four respondents were 25-34 years old, and one respondent each was between 45-54, 55-64, and 75+ years old. The majority of respondents identified as female (10). Five respondents identified as male.

Conclusion

The following are recommendations provided based on all survey responses, in-person surveys, and observations while performing the Garvin Park campground analysis in summer 2022. While these recommendations are not comprehensive, they do highlight the top responses and observations.

Campground Recommendations

The highest commented on and lowest rated amenity at Garvin Park is its bathrooms/showers. Garvin Park is in a strong position to change camper response and satisfaction with this park feature as bathroom improvements are upcoming and older bathroom facilities are planned for replacement. The two most commented on areas were replacement of the bathrooms/showers in the Lower Campground, and a desire for showers/flush toilets in the Horse Campground. As the park works to make these already planned improvements, it's recommended to consider placement within the park, and to add in, whenever possible, small improvements to facilities that will not be updated in the near future. Small improvements include adjusting the shower time-out features and increasing cleaning services to strengthen camper experience. Lighting around the bathrooms could also be looked at as an area of improvement.

During in-person feedback and in survey comments, many campers noted that the park and its features can be confusing. Many reported not knowing what trail they were on or where a trail went. With pedestrian trail usage as the highest park activity and equestrian trails as the second highest, visitors are coming to Garvin Park for the trails. Improving visitor

experience while they use the many trails at the park will help to increase return usage rates and increase word-of-mouth that Garvin Park is a place to go for walking, hiking, and horseback riding. High investment recommendations to the trails include increasing the amount or length of trails, improvements to the trail quality, better maintenance of the trails, and installing permanent maps along the trail routes or at trail heads to better communicate where people are. Lower investment recommendations to the trails include providing printed maps of the park and trail system at information kiosks at the park and having a better trail system map that is easily accessible on the County website as visitors noted the map on the website is not legible, is hard to find, and is not convenient when there is little cellular coverage at the park.

Leveling of campsites was mentioned by multiple survey respondents. Many in-person respondents followed up this recommendation with comments that they understand the slopes and hills within the park make leveling sites more challenging. Problematic sites were most often noted in the Horse Campground. Horse campers also requested leveling out areas where the horses are tied to poles for both horse and visitor safety. Many survey respondents also mentioned leveling fire pits.

At the Lower Campground, many campers noted driver speeds. While there is a speed limit sign slowing vehicles on the lower loop, recommendations were to move this sign to before vehicles drive over the hill as this area is difficult to see and many children and families walk this area between the campground and large playground. Other recommendations were to slow vehicle traffic by the campgrounds

with speed bumps and to increase the number of speed limit signs, slow signs, and watch for children signs throughout the park. Concerns about vehicle speed are warranted given the limited visibility on hills and around curves.

Other higher investment campground recommendations were to address lighting concerns throughout the park, especially near playgrounds and bathrooms/showers and updating the playgrounds at both the Lower Campground and Upper Campground. Another water fill station closer to the other campgrounds was also recommended. While water/sewer hookups were mentioned frequently, adding this infrastructure would be costly.

Other small improvements were recommended to enhance visitor experience. These include adding a wood staging area near the Upper Campground as the park's only wood staging area is in the Lower Campground, which causes campers in the upper campgrounds to have to drive a distance to get wood, leading to more traffic within the park. At the Horse Campground, it was recommended having "in use" placards available to place on paddocks. In-person notes from horse campers also mentioned spots being used by day visitors who haven't paid for the sites, leaving no camping spaces available for horse campers. Increasing day user parking at the horse camp or better enforcement of first come, first served camping sites could help alleviate camper frustration.

Tourism Recommendations

Garvin Park is well known and established as an equestrian-friendly park and is also well known locally. From survey responses, 36.4% of visitors were at the park to ride the horse trails, and 63.8% of all respondents lived within 50 miles of the park. Most campers also were spontaneous visitors, planning for their trip less than one

week ahead. The potential economic impact of travelers lies within drawing campground users from their sites to nearby businesses and events that have something unexpected to offer, along with providing necessities that were overlooked when preparing for their trip. One recommendation from campground users was to have a place to purchase small items. Additionally, having an information board with recommendations for places to go/things to see available at the campground might encourage spontaneous spending that is already happening with campers.

Garvin Park's visitors are typically frequent and local campers. Garvin Park's campers are also loyal to the park, with 63.8% noting Garvin Park as their favorite campground in Minnesota. Its visitors also rely heavily on word-of-mouth recommendations from family and friends on where to camp. By increasing visitor experience, Garvin Park's loyal campers will be the park's best advertising.

While Garvin Park might be the favorite park for the majority of respondents, the park also has steep competition within the area. Thirteen survey respondents' favorite campgrounds are within 50 miles of Garvin Park. Each of these campgrounds has the potential to compete for the same campers. Garvin Park has an opportunity to set itself apart through its unique features, through the additional amenities, and through increased communication. While 45.4% of survey respondents learned about campgrounds through recommendations from family and friends, the second most used tool for learning about campgrounds is through the campground/county websites (35.5%). Currently, information is minimal on the Lyon County website, and more could be done to use the website's Garvin Park page to market the park's amenities. Unless you are "in the know" about Garvin Park, you might be missing out on the park's unique features. This could explain

the park's lower number of tourists (those that live over 50 miles from the park). Should the park decide to increase marketing efforts, it is recommended that work be done to analyze how new visitors first came to learn about the park to see if increased communication efforts helped expand visitor knowledge of the park.

Future Surveys/Studies

It is recommended that work is done to analyze the awareness of spending opportunities near the campground. This can be done by asking about specific businesses and what campground users would like to have in the area. Another point of interest to study is the price elasticity (or willingness of campground users to spend per night) to potentially increase revenues to fund some of the amenities and upgrades noted by survey takers.

While the campground user analysis completed during summer 2022 garnered a good starting point for data on tourism and economic impact, the park had a lower than expected response rate due to the delay in camping at the end of May/beginning of June. Further visitor studies are recommended to analyze park and campground usage, along with tourism impact from the park.

As Garvin Park makes improvements to facilities and amenities, it is recommended that future surveys/studies be conducted to analyze the impact of these improvements on park usage and user sentiment.

Q17 What additional amenities would you like to see at this campground?

Answered: 115 Skipped: 41

#	RESPONSES	DATE
1	bathroom upgrades/Maintenance flush toilets water fill station	9/15/2022 11:09 AM
2	wayfinding better marked tails and a good map	9/15/2022 11:06 AM
3	bathroom upgrades/Maintenance you don't need additional amenities however, it would be nice if the vault toilet we reserved closest to was actually open. We have a potty trailing toddler and thought we'd be close to a toilet. Turns out we're the furthest and the one park in the middle of the lower level is hazardous.	9/15/2022 11:03 AM
4	Place to purchase supplies staff at entrance to park. a place to get firewood and other small items forgotten	9/15/2022 10:57 AM
5	bathroom upgrades/Maintenance Campsite specs Issues with visit Safety signage 1 Speed bumps in loops to slow traffic down. 2 Speed limit sign on lower loop should be before the hill its a dangerous spot 3 Water in bath house is way too hot. Nearly impossible to use at that temp 4 Playground in lower is in rough shape and needs repair 5 Watch for children signs 6 Kids missed the painted rocks. They would have fun finding or hiding them. 7 Bathroom instead of porta potty by big playground 8 Move fire rings to more level ground a little further away from camp spot	9/15/2022 10:52 AM
6	signage better marked trails and map. shower house	9/15/2022 10:47 AM
7	bathroom upgrades/Maintenance Safety signage a bathroom by the large park and picnic shelter instead of a portapotty. missed the painted rocks. More 10mph sign and add a slow watch for children sign at bottom of hill by large playground	9/15/2022 10:43 AM
8	bathroom upgrades/Maintenance Campsite specs Safety showers, flatter camper spots, more fire rings to flat ground away from trees. Speed bumps more slow signs	9/15/2022 10:39 AM
9	bathroom upgrades/Maintenance Campsite specs better level sites and no vault toilets	9/15/2022 10:33 AM
10	bathroom upgrades/Maintenance bathrooms at Garvin park are nasty. Rarely Cleaned	9/15/2022 10:24 AM
11	bathroom upgrades/Maintenance cell/internet service more amps internet or cell service. improved bathrooms. improved electrical hookups	9/15/2022 10:22 AM
12	playground new playgrounds	9/15/2022 10:16 AM
13	Campsite specs cell/internet service wifi more even campsites	9/15/2022 10:14 AM
14	signage would like to see signs hung on the site so one knows if and when the site is reserved. as done at Federal Dam	9/15/2022 10:08 AM
15	trail or trail usage more trails or clean up the original trails	9/15/2022 10:03 AM
16	pool swimming pool	9/15/2022 9:58 AM
17	bathroom upgrades/Maintenance flush toilets	9/15/2022 9:55 AM
18	na none, love the simplicity and outdoors feel of this campground. Stupid questions, what do the last seven questions have to do with camping?	9/15/2022 9:51 AM
19	Campsite specs add a wood staging place at the other levels of camping for easier access for everyone	9/15/2022 9:47 AM
20	horse amenities horse obstacles	9/15/2022 9:44 AM
21	horse amenities more pens	9/15/2022 9:38 AM
22	bathroom upgrades/Maintenance Place to purchase supplies shower and bathroom. More pens	9/15/2022 9:36 AM

87	Place to purchase supplies	ice	7/6/2022 3:14 PM
88	dump station	dump site in upper campground	7/6/2022 3:10 PM

Garvin Park Campground Survey

89	signage wayfinding need more direction on where to get water at campers. Have no idea where to get it at	7/6/2022 3:04 PM
90	wayfinding in progress at horse camp	7/6/2022 2:53 PM
91	bathroom upgrades/Maintenance Normal bathroom, flush like upper camping	6/20/2022 11:47 AM
92	bathroom upgrades/Maintenance lighting lighting in bathrooms, upgrade bathrooms	6/20/2022 11:44 AM
93	trail or trail usage mow trails, garbage around the cabin, better marking of trails. R5 only site with electric on the left side. Access to water	6/20/2022 11:39 AM
94	bathroom upgrades/Maintenance water hookup water fill. Men's bathroom missing stall door	6/20/2022 11:33 AM
95	bathroom upgrades/Maintenance campground Maintenance Campsite specs cell/internet service ice playground signage playground update by lower camp. Trees in middle area. WiFi access. Mens bathroom missing stall door. Level of sites is an issue. Shower stuck on hot. Signage for reserved is helpful now. Nice doing reservation online.	6/20/2022 11:24 AM
96	campground Maintenance clear check-in instructions lighting more amps playground signage exterior lighting. More 50 amp sites. Best playground in Lyon county. Need to clean pipes under bridges-they are filled with silt and trees growing in, will cause flooding in the future. Have signs on upper sites that says whether reservable or already reserved so people know if they'll be reserved so first come for reservable	6/20/2022 11:15 AM
97	bathroom upgrades/Maintenance playground Longer showers, big playground in upper campsite	6/20/2022 11:09 AM
98	lighting Yard Light fixed in upper camp Like that they are very interactive with campers-sent an email months ago for free firewood	6/20/2022 11:04 AM
99	bathroom upgrades/Maintenance playground Longer timer on showers, playground in upper area, lots of bugs in the bathroom	6/20/2022 10:56 AM
100	water hookup fresh drinking water	6/20/2022 9:58 AM
101	Campsite specs level campsites	6/20/2022 9:55 AM
102	na Fine as is	6/20/2022 9:53 AM
103	na fine as is	6/20/2022 9:49 AM
104	water hookup more water spigots	6/20/2022 9:47 AM
105	dump station an additional dump station for upper campground	6/20/2022 9:44 AM
106	bathroom upgrades/Maintenance Showers at horse camp Vault Toilets	6/20/2022 9:35 AM
107	na no	6/20/2022 9:28 AM
108	trail or trail usage Trails	6/20/2022 9:23 AM
109	bathroom upgrades/Maintenance water hookup toilets and water	6/20/2022 9:19 AM
110	bathroom upgrades/Maintenance lighting FIX THE SHOWER, UPGRADE TOILETS, ADDITIONAL LIGHTING AROUND REST ROOMS	6/20/2022 9:01 AM
111	lighting working street light in primitive camp area	6/20/2022 8:50 AM
112	cell/internet service internet and cell service	6/20/2022 8:37 AM
113	Issues with visit Better picnic benches-spray more for bugs	6/20/2022 8:33 AM
114	bathroom upgrades/Maintenance plumbing and flushable toilets	6/20/2022 8:23 AM
115	Campsite specs horse amenities More sites in the horse camp, showers for the horse camp, camp sites leveled so not using 8 inches of block to even it out, more corrals for horses, leveling out areas where horses are tied to poles.	6/10/2022 10:03 AM
