

October 2022

Twin Lakes Park 2022 Summer Campground Visitor Report

PREPARED FOR Greater Minnesota Regional Parks and Trails Commission

BY Southwest Regional Development Commission

About Southwest Regional Development Commission

Southwest Regional Development Commission (SRDC) is a government agency that aims to connect units of government, businesses, and communities with the resources, planning, and services needed to promote and further opportunities in Southwest Minnesota. Since 1973, SRDC has served the nine counties of Cottonwood, Jackson, Lincoln, Lyon, Murray, Nobles, Pipestone, Redwood, and Rock, working with and on behalf of these counties and their communities. Through partnerships and the leveraging of resources, SRDC has worked to lead the advancement of programs and projects in the areas of community, economic energy, transportation, and land use development.

More information about SRDC is available at www.swrdc.org.

About Greater Minnesota Regional Parks and Trails Commission

Greater Minnesota Regional Parks and Trails Commission (GMRPTC) is comprised of 13 members appointed by the governor, two members from each of the six districts and one at-large member. The Greater Minnesota Regional Parks and Trails Commission was created to undertake system planning and provide recommendations to the legislature for grants from the Parks and Trails Legacy Fund to counties and cities outside of the seven-county metropolitan area that have been designated as regionally significant.

More information about GMRPTC is available at www.gmrptcommission.org.

Acknowledgments

This report is a collaborative effort made possible through the input, guidance, support, and work of the following:

- Renee Mattson, Greater Minnesota Regional Parks and Trails Commission
- Joe Czapiewski, Greater Minnesota Regional Parks and Trails Commission
- Rick Anderson, Greater Minnesota Regional Parks and Trails Commission
- Jessica Welu, Southwest Regional Development Commission
- Rosemary Bruce-White, Southwest Regional Development Commission
- Justin Schroyer, Southwest Regional Development Commission
- Brooke Kor, Lyon County Parks

Thank you to the Twin Lakes Park and Lyon County staff and to the Twin Lakes Park Campground Host who interacted with visitors and collected and promoted surveys throughout the summer.

About the Authors

Rosemary Bruce-White has served as a Development Planner for SRDC since 2019. Her work includes comprehensive planning, leading regional economic resiliency planning, and assisting local units of government in transportation, land-use, and solid-waste management planning. She has bachelor's degrees in Economics and Community and Regional Planning from Iowa State University in Ames, Iowa.

Jessica Welu has served as the Communications Specialist/Planner for SRDC since 2018. Her work includes leading the development and implementation of the organization's Comprehensive Communications Plan, and assisting local units of government, non-profits, and businesses with communications, marketing, and outreach planning efforts, as well as working on regional tourism and marketing efforts. She is a Certified Public Communicator through Texas Christian University, has a master's degree in Creative Writing and Literature, and bachelor's degrees in Professional Writing & Communications and Creative Writing & Literature.

Executive Summary

Twin Lakes Park 2022 Summer Campground Visitor Report

About: Twin Lakes Park is nestled between East Twin and West Twin Lakes in Lyon County. The park is located two miles south of Florence, four miles northeast of Ruthton, and around 25 miles southeast of Marshall. The park sits on 61.8 acres. The campground offers 28 sites, all with electric hook-ups. Five sites in the north campground are reservable online through the Lyon County website. All other sites are on a first come, first serve basis. Twin Lakes Park has been part of the designated Greater Minnesota Regional Parks and Trails System since 2015.

Top Information Sources to Learn About Campgrounds

- #1** Recommendation from Friends & Family
- #2** Campground/County Website
- #3** "Other"
- #4** Internet Search

The seven 2022 Campground User Surveys asked respondents to list their favorite campgrounds in Minnesota. Across all surveys, a total of 302 responses were provided. The heat map of favorite campgrounds (right) shows the locations of favorite campgrounds from all seven surveys. It is worth noting that across the board, the majority of respondents' favorites are located in southwestern and south central Minnesota. Many of these campgrounds can be seen as competitors to the seven regional campgrounds in southwestern Minnesota. Of the campgrounds listed, Garvin Park and received most "favorite" responses for regional campgrounds at 61 responses, followed by Plum Creek Park with 49 responses. Lake Washington Park received 22 responses, Hole in the Mountain Park 17 responses, Twin Lakes Park 15 responses, and Ramsey Park 13 responses. There were no responses mentioning Memorial Park.

Top competitors to the seven regional parks were state parks, including Camden State Park (10 responses), Lake Shetek State Park (9), and Itasca State Park (7). Thirty campgrounds in southwestern Minnesota were listed as favorites.

Campground Economic Impact

Less than \$200
Average anticipated spending during visit

Top Spending Categories

- #1** Purchasing Camping Supplies
- #2** Nearby Bars or Restaurants
- #3** Events or Activities

While most campers, when surveyed, did not plan or budget for spending categories, they were not opposed to spending in these categories. Most, on the other hand, were spontaneous shoppers and were open to spending depending on what was around locally, what the weather was like during their visit, and depending on their mood.

Methodology: In 2022 the Greater Minnesota Regional Parks and Trails Commission (GMRPTC) contracted with Southwest Regional Development Commission (SRDC) to conduct a campground user analysis of seven campgrounds in southwestern Minnesota: Garvin Park, Hole in the Mountain Park, Lake Washington Park, Memorial Park, Plum Creek Park, Ramsey Park, and Twin Lakes Park. The campground user analysis consisted of two survey approaches. Survey collection was open online from May 23-September 13, 2022, with marketing, outreach, and in-person surveys conducted throughout the time period.

For full results and methodology, see the full report.

Introduction

TWIN LAKES PARK Twin Lakes Park is nestled between East Twin and West Twin Lakes in Lyon County. The park is located two miles south of Florence, four miles northeast of Ruthton, and around 25 miles southeast of Marshall. The park sits on 61.8 acres, 21.8 of which are developed. With close proximity to two lakes, the park offers visitors opportunities for water activities. The park and campground are managed by Lyon County staff and a seasonal campground host. Twin Lakes Park was designated as part of the Greater Minnesota Regional Parks and Trails System in 2015.

In 2022 the Greater Minnesota Regional Parks and Trails Commission (GMRPTC) contracted with Southwest Regional Development Commission (SRDC) to conduct a campground user analysis of seven campgrounds in southwestern Minnesota: Garvin Park, Hole in the Mountain Park, Lake Washington Park, Memorial Park, Plum Creek Park, Ramsey Park, and Twin Lakes Park. GMRPTC is responsible for system planning and providing recommendations to the legislature for grants funded by the Parks and Trails Legacy Fund to counties and cities outside the seven-county metropolitan area. The campground user analysis was undertaken to analyze campground usage, camper satisfaction and demographics, and analyze the tourism and economic impact of the campground. Ultimately, this data is meant to help inform planning and marketing efforts by GMRPTC, Twin Lakes Park, Lyon County, and collaborative partners.

The campground user analysis consisted of two survey approaches. The first was a **Past Campground User Survey** developed and marketed to people who have visited any of the seven regional parks in southwestern Minnesota

over the last two years (2019-2021). The second was a **Twin Lakes Park 2022 Campground User Survey** developed and marketed to campground users during the 2022 summer camping season. Survey collection was open online from May 23-September 13, 2022, with marketing, outreach, and in-person surveys conducted throughout the time period. A total of 83 surveys were collected for the Twin Lakes Park 2022 Campground User Survey. An additional nine Past Campground User Survey responses were collected for the park, for a total of 92 user responses. Together, the two surveys provide a snapshot of campground usage and the impact of Twin Lakes Park on local tourism and the local economy.

The survey and campground user analysis were designed to be representative of the summer season, defined as Memorial Day through Labor Day. It is important to note that Twin Lakes Park's campground operating season starts earlier in the spring and ends later in the fall. This report focuses on traditional summer visitors using Twin Lakes Park's campground. While the survey was available to day users, the focus of outreach and in-person survey collection was on campground users. Visitors to Twin Lakes Park during the early spring and

fall season, or for other uses, were beyond the scope of this project. As such, readers should understand that this report quantifies only a portion of the park's full tourism and economic impact.

For more details on this project's methods, see our [methodology](#).

Twin Lakes Park: A Snapshot

Twin Lakes Park's campground is split into two segments, a north campground and a south campground. The park offers 28 sites, all with electric hook-ups. Five sites in the north campground are reservable online through the Lyon County website. All other sites are on a first come, first serve basis. Reservation costs are \$20 per night. A camping registration paytube is located in both the north and south campground. On Fridays and Saturdays either Lyon County staff or campground hosts go through and register all the campers.

There are no seasonal sites at Twin Lakes Park beyond the campground host site. The park allows up to 14 nights of consecutive stay.

Accessing Twin Lakes Park

Twin Lakes Park is located roughly 1.5 miles off of MN Hwy 23 on County Road 51. The park is split into the north segment and south segment by County Road 53, with only one entrance to the campground. SRDC observations during site visits were that wayfinding signs are needed for visitors as the park can be difficult to find if unfamiliar with the area.

Unique Features

The park is nestled between East Twin and West Twin Lakes. While West Twin Lakes is restricted to electric motors only, both lakes offer opportunities for fishing all year round. The lakes are known for prime ice fishing, offering good opportunities for winter park usage. The park has beach access to the lakes and a new paddle share program, offering visitors rental opportunities for kayaks, double kayaks, and paddle boards. The paddle share allows users to make reservations online through the Lyon County website.

The park has two playgrounds, including a new natural landscape playground and two picnic shelters.

Located two miles south of Florence and eight miles northeast of Ruthton, the closest restaurants are located in Ruthton, Tyler, and Balaton (between 4-11 miles away). The closest grocery store is in Tyler, and the closest gas station is in Ruthton.

Methodology

Overview

The Twin Lakes Park user analysis consisted of two survey approaches. The first was a **Past Campground User Survey** developed and marketed to people who have visited any of the seven regional parks in southwestern Minnesota over the last two years (2019-2021). The second was a **Twin Lakes Park 2022 Campground User Survey** developed and marketed to campground users during the 2022 spring-fall camping season. Data in this report is drawn from both complimentary surveys during the summer of 2022 with the survey collection open from May 23 to September 13.

SRDC attempted to conduct kick-off and close-out meetings with Twin Lakes Park's designated contact (Lyon County staff) prior to and following survey collection. These meetings were used with the seven campgrounds to determine best approaches to survey outreach and collection, as well as to gather registration data available from previous years and from the 2022 summer camping season. Lyon County staff were unable to attend either scheduled meetings and a written response was provided to SRDC questions on May 18, 2022, that functioned as the kick-off discussion. Written responses were provided to SRDC questions on October 10, 2022, that functioned as the close-out discussion. SRDC provided weekly/bi-weekly email updates to Lyon County staff on survey progress and provided communications prior to each campground visit throughout the survey collection period.

The survey and campground user analysis were designed to be representative of the summer season, defined as Memorial Day through Labor Day. Focusing on summer campground users coincides with the park's peak visitation season

and ensures comparability with other visitor studies conducted in regional and state parks across Minnesota. It is important to note that Twin Lakes Park's operating season goes beyond this period.

This report focuses on traditional summer visitors using Twin Lakes Park's campground. While the survey was available to day users, the focus of outreach and in-person survey collection was on campground users. Visitors to the park during the early spring and fall season, or for other uses, were beyond the scope of this project. As such, readers should understand that this report quantifies only a portion of Twin Lakes Park's full tourism and economic impact.

Campground User Estimates

Campground user estimates were collected using registration information and campground capacity as provided by Lyon County staff.

At the beginning of the season, SRDC estimated a full capacity rate of the campground for the 16-week summer season of 448 visits, given each site was rented by one user group each week. SRDC aimed to have 90 responses for the season, a response rate of 20% of the pre-season capacity estimates.

End of the season reservation numbers were provided by Lyon County staff for the 28 sites between May 16-September 11, 2022. For the park's five reservable sites, a total of 144 reservations were made. For the park's first-come, first-serve sites, a total of 213 reservations were made.

This makes a total of 357 reservations during the period. These numbers are 91 visits below pre-season estimates.

Survey Development

SRDC attempted to conduct kick-off and close-out meetings with Lyon County staff as well as GMRPTC during survey development. These meetings were used to determine best approaches to survey outreach and collection, as well as to gather registration data available from previous years and from the 2022 summer camping season. Lyon County staff were unable to attend either scheduled meeting and a written response was provided to SRDC questions on May 18, 2022, that functioned as the kick-off discussion.

The survey was designed through a collaborative process with GMRPTC, SRDC, and Lyon County staff. SRDC reviewed previous trail surveys conducted through GMRPTC and made recommendations to align questions with trail user surveys. Whenever possible, questions were designed to collect data that is comparable to visitor survey data collected previously through GMRPTC, by the Metropolitan Council, and the Minnesota Department of Natural Resources.

Prior to finalizing the survey, the survey was reviewed by GMRPTC and tested by SRDC. The final Twin Lakes Park 2022 Campground User Survey was 23 questions long, plus seven additional demographic questions. Question topics included overall campground satisfaction, campground activities, camping characteristics, trip planning, information sources, and demographics. On average, online respondents took 3-5 minutes to complete the survey. The final Past Campground User Survey was 15 questions long, plus seven additional demographic questions.

Survey Outreach

The previous user survey was marketed using only online resources, including SRDC's website and social media, and shared collaborative partners' websites and social media pages.

The Twin Lakes Park 2022 Campground User Survey was available to visitors in printed form or electronically. At the start of the survey collection period, paper surveys were placed at the park's kiosk with survey drop-offs in the pay tubes. The campground host also assisted in passing out paper surveys to campers each week and collected completed surveys. Flyers encouraging survey participation were placed on the kiosk and in the men's and women's bathrooms.

The electronic survey was marketed through flyers with a scannable QR code and survey link and on business card-size handouts with scannable QR code and survey link. The survey was also marketed on SRDC's website and social media, and through the County's website. The survey, however, was not marked through the Lyon County social media page which has 1.5 thousand followers, a missed opportunity for survey outreach. Survey outreach was conducted on SRDC's social media four times and shared 55 times.

Figure 2. Outreach Materials

Survey Collection

In-person surveys were conducted by SRDC staff. Survey participation was limited to one adult (18 years of age or older) per camping group as the group responder. A camping group was defined as anyone staying at the responder’s reserved campsite during the visit. A visit was defined as the total extent of the camping group’s stay at Twin Lakes Park, from registration to check-out. It is worth noting that some participants did note multiple visits within the 2022 summer season. These participants were asked to limit their response to their current or most recent visit. Campers, however, were not limited to only taking the survey once during the 2022 summer season.

When sites were approached with groups of people, SRDC confirmed the number of sites being reserved with the group and asked one member of each reserved site to complete the survey.

SRDC walked the campground during each visit and approached each campsite and visitor to conduct individual surveys. Visitors were each greeted and informed that the survey was being conducted in partnership with GMRPTC and Twin Lakes Park to assist with understanding campground usage and to help the park get further funding for future projects. Visitors were asked if they had a few minutes to take the survey with SRDC staff verbally. Printed surveys were provided to those who chose to self-administer the survey. SRDC conducted verbal surveys by reading survey questions verbatim and recording responses on the printed survey. All visitors were assured their participation was voluntary and that surveys were anonymous.

In instances where there were campers or tents at sites but no adult present outside the camper/tent, SRDC left a printed survey under windshield wipers of vehicles or placed securely

on picnic tables. Handwritten notes were left on the top of the printed surveys on how to turn in completed surveys.

In instances where visitors declined to participate SRDC asked if they could provide them with a card with the QR code in case they had time later to take the survey. There were no noted declines during SRDC’s in-person visits.

Survey Dates, Times, & Completions

At the start of the survey collection period, four in-person collection times were planned throughout the summer season during key times when the campground typically experienced high usage. These key times were set for near Memorial Weekend, Independence Day, Labor Day, and a weekend of full reservations. Lyon County staff noted during the kick-off correspondence that holiday weekends were typically booked but general weekends were hit and miss depending on weather conditions.

Two additional in-person visits were added to Twin Lakes Park during the survey collection period (see [Special Circumstances](#) for details).

Figure 3. Survey Dates, Times & Collections

Date	Day	Time	Hours	Completed
6/3/22	Friday	12:15-12:30pm	.25	0
6/17/22	Friday	3pm-1:45pm	.75	1
7/2/22	Saturday	12pm-1pm	1	7
8/13/22	Saturday	1:30-2:15pm	.75	2
8/20/22	Saturday	3:15-3:45pm	.5	3
9/4/22	Sunday	1:30-2:30pm	1	3

Response Rate

To receive a statistically representative survey response rate, SRDC established a response rate goal of 20% of total campground reservations for the season. SRDC aimed to have 90 responses for the season, a response rate of 20% of the pre-season capacity estimates. Mid-season, the targeted response rate was adjusted to 15% of pre-season capacity estimates (see [Special Circumstances](#) for more information).

At the end of the season, it is estimated that a total of 357 were made for Twin Lakes Park during the 2022 summer season (see [Campground User Estimates](#)). Of those 357 reservations, a total of 83 campground users completed the Twin Lakes Park 2022 Campground User Survey, for a response rate of 23.2%.

Of the 83 responses, thirteen were collected via the electronic survey link (15.7%). Sixteen were collected verbally during in-person visits (19.3%). The other 54 responses were collected from printed surveys left at sites during in-person visits and from campground hosts handing out and collecting surveys (65.1%).

Special Circumstances

There was one unanticipated circumstance during the survey period which affected the survey response rate, and that was early season weather. Memorial weekend brought strong storms to the area with damaging winds, downing trees and causing difficulties for camping and outdoor recreation in the area. Garvin Park received heavy damage and Twin Lakes Park received some damage during the storm. As Lyon County staff manage both parks, priority during the end of May and beginning of June was getting the parks back open. While Twin Lakes Park opened back up soon after the storm, the effect of the storm and Garvin Park's

closure also affected Twin Lakes Park.

Memorial weekend was followed by a cool and wet first few weeks of June which impacted camping, followed by a summer of hot, dry weather. The hot, dry weather helped bring campers to Twin Lakes with its many opportunities for water recreation which helped the survey response rate regain numbers after a slow start in May/June.

With the initial slow response rate to the survey, SRDC made changes to the survey collection protocol, opting to visit the park more often, but for a shorter length of stay. Six visits were completed rather than the initial four. More visitors were opting to complete printed surveys than electronic surveys early on, so SRDC began leaving printed surveys at every reserved campsite in safe but prominent places.

Special circumstances with the Past Campground User Survey included the respondents' most recent visits. For the five respondents who indicated they had visited Twin Lakes Park between 2019-2021, four respondents noted that their most recent visits were in 2022. It is worth noting that there is no way of knowing whether these respondents took the Twin Lakes Park 2022 Campground User Survey as well, or if they took only the

past user survey. To ensure that data was not skewed, the past user survey analysis has been kept separate from the 2022 summer survey analysis.

to the response sample's median average rather than mean average. Responses to open-ended questions were loosely tagged and categorized. Responses are provided in the Appendices.

Data Analysis

Survey data was downloaded from the SurveyMonkey server and analyzed in Microsoft Excel. The report is split into two sections: an analysis of the Twin Lakes Park 2022 Campground User Survey and an analysis of the Past Campground User Survey responses that indicated previous visits to Twin Lakes Park since 2019. Throughout this report, unless otherwise specified, the word “average” refers

Visitor Demographics

Participants from the Twin Lakes Park 2022 Summer Survey spanned a wide range of ages from 18-74. The average adult survey participant was between 45-54 years old (median=49.5). The most common age groups for participants were 35-44 (21), 55-64 (16), 45-54 (15), 65-74 (15) and 25-34 (10).

While the survey did not ask for the age of children (under 18 years old) within the participant's camping group, 109 children were part of respondent camping groups, with a median of two children in groups camping with children. Over half of the survey respondents (59.2%) indicated that their camping group included children. Of those camping with children, 17 camped with two children, eleven with one child, seven with three children, four with four children, three with five children, and two with six children. Another responded "lots" when asked how many children were camping in their group.

The gender identity of participants was split with only a slightly higher percentage of female respondents. Forty-one respondents identified as female (50.6%), whereas 39 identified as male (48.1%). One survey respondent identified as other/preferred not to answer.

The significant majority of respondents identified as White/Caucasian, with 78 of 82 responses (95.1%). Two respondents identified as American Indian/Alaska Native (2.4%), one identified as Black/African American (1.2%), and one identified as Native Hawaiian or other Pacific Islander (1.2%). One preferred not to answer. Two participants identified tribal affiliations with a tribe other than listed on the survey.

Figure 4.

Figure 5.

Participants by Gender

Q31: What is your gender identity? (Responses: 81)

Figure 6.

Participants by Race/Ethnicity

Q24: How do you describe yourself? (Responses: 82)

Almost all respondents identified English as the language mainly spoken at home, with 81 of 82 responses. One participant reported Arabic as the primary language spoken at home.

Twin Lakes Park survey participants, on average, reported annual household incomes above the state and national averages. The median household income (before taxes) of respondents was between \$80,000-\$89,999, compared to the statewide median of \$73,382 and national median of \$64,994.* Over half (57.4%) the survey participants who reported income had annual household incomes of \$80,000 or higher, with sixteen (20.2%) reporting incomes of \$100,000 or more. Incomes varied more significantly, however, for Twin Lakes respondents, with 8.5% reporting incomes of less than \$20,000 (4). Six respondents (12.8%) reported incomes of \$30,000-\$49,000. Thirty-six respondents either skipped or preferred not to answer.

The educational attainment level of participants was slightly below the state average, with 33.8% of respondents (25) having a bachelor's degree or higher, compared to

* U.S. Census Bureau 2020 American Community Survey 5 Year Estimates

36.8% statewide.* Twenty-two respondents (27.5%) had an associate or vocational degree and five respondents (6.2%) had some college education but no degree. Twenty-one respondents (26.2%) had a high school diploma or equivalent and one respondent (1.2%) did not graduate high school. Six respondents preferred not to answer.

Eleven respondents (13.8%) reported having a member of their camping group with a physical, mental, or sensory disability/condition, which is above statewide estimates of 10.9% of the population.* Two respondents preferred not to answer.

Participants by Education

Q30: What is the highest level of education you have completed? (Responses: 80)

Figure 8.

Participants by Annual Income

Q28: Please indicate your total household income before taxes. (Responses: 79)

Campground Experience

Survey participants were asked about their experiences at Twin Lakes Park during their visit, including the reservation process.

Overall, the reservation process was easy and 33 respondents (50.8%) stated that the process was “very easy”. Three respondents (4.6%) noted that they had to reach out for help, nine (13.9%) noted it was “okay,” and five (7.7%) noted that the process was “difficult” or “very complicated”.

Of the 65 responses to this question, fifteen provided additional comments. Most of these comments (11) noted that they did not utilize the reservation system and were arriving at the first come, first served sites. Two comments noted that the website used to make reservations had complications which included not getting a site number in their confirmation email, the website flipping between Garvin and Twin Lakes campgrounds, and the website showing all the sites were reserved despite being empty.

All but one respondent found their sites to be accessible. The one concern was from a respondent that made a reservation and found someone else in their spot upon arrival. No other information on this incident was provided.

Respondents ranked their satisfaction with the campground amenities, including campsites, bathrooms/showers, campground upkeep, electric hook-ups, playgrounds, and shelters/picnic tables. To better understand how campers felt about each amenity, satisfaction was ranked as very dissatisfied (1), slightly dissatisfied (2) okay (3), slightly satisfied (4), and very satisfied (5). By assigning a numeric value to respondent satisfaction, average satisfaction scores were

Figure 9.

Reservation Process

Q20: How was the reservation process? (Responses: 65)

Figure 10.

Were There Issues Accessing the Site?

Q7: Did you have any issues accessing your campsite? (Responses: 76)

Figure 11.

Campground Activities

Q23: Which of the following campground activities have you or your group done or plan to do during your visit? (Select all that apply) (responses: 75)

determined for each feature.

Overall, campground amenities were highly ranked, with the highest ranked features being the campground staff and electric hook-ups at 4.9. Playgrounds and shelter/picnic tables had average satisfaction rankings of 4.8, while all the rest of the features were rated at 4.7. It is important to note that a lot of the campground features at Twin Lakes campground are newer.

When asked about amenities that would make their overall experience better, 51 survey respondents offered their input. Water/sewer hook-ups were mentioned by 23 (45.1%) respondents. The second most requested amenity was regarding water access. Currently there is a concrete slab. Eight (16.7%) campground users wanted to see the concrete slab turned into a sandy beach for a swimming area. Seven (13.7%) respondents made recommendations regarding upgrading the current shower/bathroom building. These recommendations included wanting a bench or shelf for campers to place items while showering, and fixing the automatic lights, so they do not turn off while the showers

are in use. Five respondents mentioned the campground layout, including wanting additional sites by the picnic shelter, a fish cleaning station, and shade.

Survey participants were asked about the activities they did or planned to do at Twin Lakes Park during their visit. Most respondents (39 or 52.0%) stated that they planned to go walking/hiking during their visit, followed close by swimming with 38 (50.7%) responses. Boating was identified by 23 (30.7%) respondents, and kayaking by 18 (24.0%) respondents, followed by events at the campground (14 or 18.7%). There were 20 respondents that provided additional information in the “other” category. Eight of them included water activities (seven for fishing and one for jet skiing). Three respondents mentioned relaxing and playing at the playground with children.

For planned activities, it can be noted that water activities, when combined, are mentioned over 89 times by the 75 respondents that answered this question.

Figure 12.
Satisfaction With Campground Amenities

Q16: Overall, how would you rate your experience with the following park features? (Responses: 75)

Camper Characteristics

Of the Twin Lakes Park visitors who participated in the survey, most were campers.

Six (7.2%) respondents were day users, while the other 77 (92.7%) were campers.

Camping groups were defined in the survey as anyone staying at the responder's reserved campsite during the visit. For all campsites surveyed, the average camping group size was 3.8 people, with the largest reported group size of eight people. Most groups (59.2%) surveyed did have children camping with them and averaged 2.5 children for each site.

Most campers planned for their trip less than one week ahead, at 30 responses (39.5%), followed by 15 responders (19.7%) who planned for their trip 1-2 weeks in advance, twelve (15.8%) that planned for their trip 3-4 weeks in advance, ten (13.2%) that planned for two or more months, and nine (11.8) who planned 1-2 months before their visits. The average length of stay was 3.1 days, excluding the day visitors.

When asked how frequently survey participants camp in Minnesota from May 1st-October 31st, 68 respondents (90.7%) noted they camp at least once a month. The most common response was 2-3 times a month at 35 responses (46.7%), followed by respondents that camped once a month with 25 (33.3%) responses, and eight (10.7%) that camped every weekend. Three (4.0%) respondents reported that they go camping once a season in Minnesota, making Twin Lakes Campground the only camping experience for the 2022 year, while four (5.3%) respondents were camping for the first time during this visit.

Figure 14.

Trip Planning & Length of Stay

Q19: How far in advance did you plan for this visit? (Responses: 51)

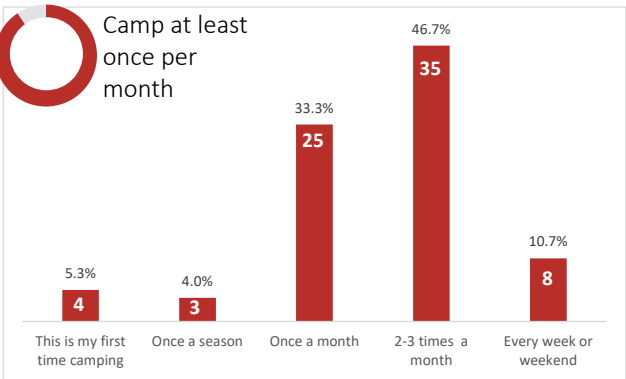

Q9: How many days do you plan on staying at this campsite? (Responses: 49)

Most survey respondents chose to camp in a pull-behind camper trailer, with 67 responses (88.2%). Recreational vehicle camping was the second choice for survey respondents with 9 responses (11.8%), and four respondents (5.3%) chose to camp in a tent.

Participants were asked if they rented any equipment for their visit, such as renting a camping trailer or recreational vehicle. Of the 75 responses, three respondents planned on renting kayaks during their visit. It should be noted that the kayak rental was new to Twin Lakes Park in 2022 and didn't start until later in the season.

Survey participants were asked how they first learned about the campground. These results had some overlap with the choices offered. Friends and Family member accounted for 32 of the 76 respondents (42.1%); however, four comments provided in the "other" category mentioned hearing about the campground from locals in the area. In general, being referred to the campground via word-of-mouth can account for a total of 36 (47.4%). There was a similar trend with respondents that chose "previous visits" (33) and the three comments in the other section that mentioned previous visits such as fishing, or camping there since the campground opened. These responses, combined, indicated that 36 (47.4%) respondents learned about the campground from previous visits.

How Campers Learned About Park

Q19: How did you first learn about this campground? (Responses: 76)

Campground Tourism

The majority of survey participants at Twin Lakes Park were locals. For this report, a tourist is defined as someone who is visiting from 50 miles or more away from their home zip code, the rest are considered local users. Of the 83 survey responses, 75 (90.4%) were local visitors, while tourists made up the remaining eight (8.6%) visitors. One survey response from southeast South Dakota is considered a local visitor due to their proximity to Twin Lake Park.

Of the eight tourists, three of them were from the Twin Cities/St. Cloud corridor, two from Texas, one from Oklahoma, and one from South Dakota.

The survey also asked respondents about activities or places their camping group had or planned to visit locally during their stay. The survey asked about three types of local attractions: 1. Events/Activities, 2. Parks & Trails, and 3. Museums/Historical Sites.

Figure 18.

Heitordp, CC BY-SA 3.0 <<http://creativecommons.org/licenses/by-sa/3.0/>>, via Wikimedia Commons

For events/activities, three respondents stated that they planned to visit the Nobles County Fair, Belgium Days in Ghent, and a nearby 4th of July parade. Ten respondents noted that they planned to visit nearby parks and trails. Of these responses, six of them stated that they were planning to go to places within the campground and two planned on visiting Camden State Park and Pipestone National Monument. The Pipestone National Monument was also mentioned by two out of five respondents that noted they were visiting nearby museums/historic sites. Other Historic Site/museums mentioned by survey respondents included Lyon County and the Fagen Air Museum.

Respondents were asked to provide their favorite campgrounds in Minnesota as a way to compare user interest and expectations. Twin Lakes Park respondents provided 27 favorite campgrounds. Twin Lakes Park was noted by 14 respondents as their favorite campground, followed by Plum Creek Park with three responses, and Camden State Park and Current Lake Campground with 2 responses each.

Of the campgrounds mentioned, five of them were within a 50 miles radius of Twin Lakes Park, including Plum Creek Park in Walnut Grove, Camden State Park in Lynd, Sundquist Park at Lake Sarah in Garvin, and Talcot Lake in Dundee. Their proximity to Twin Lakes Park makes them potential competitors for campground users.

The low number of tourists suggests that the park could use additional marketing to reach people who are not local.

Figure 20.

Favorite Campground in Minnesota

Q21: Do you have a favorite campground in Minnesota? (Responses: 74)

Campground Economic Impact

When measuring the economic impact of campgrounds and their users within a community, traditional methods used for analysis do not account for the entire campground experience. Typically, when tourists are visiting a location for an event or vacation, they are looking for accommodations (such as hotel or Airbnb), purchasing food for all their meals at the destination, and going to specific sites or events. Groups that are going to campgrounds are typically paying for their campsite (which typically costs a fraction of most other accommodations) and attempting to purchase all their supplies and food ahead of arriving at the campground so that they can cook at the campground. Due to these reasons, tracking expenditures at local bars/restaurants, events/activities, camping supplies and equipment rentals did not assist much in telling the entire story of the campground experience.

For Twin Lakes Park campground users, when asked how much they planned to spend on

these categories, the most popular response was less than \$25.00, which included several responses stating that they did not plan on spending on anything in these categories. A higher percentage of respondents were planning on spending more on purchasing camping supplies, with ten planning to spend \$26-\$50, seven \$51-\$100, two \$101-\$200, and two \$200 or more. The second highest spending category was retail shopping, followed by nearby bars/restaurants, and events/activities. Equipment rentals the lowest budgeted-for category with only three respondents planning \$26-\$50.

When asked about their overall budget planned for their camping trip (excluding transportation costs), 62 (83.8%) respondents stated that they budgeted for less than \$200, ten stated that they planned to spend \$200-\$400 and two planned to spend \$401-\$700.

One thing noted during in-person survey collection is that campground users typically

Figure 21.1

Anticipated Spending During Visit

Q9: How much do you plan on spending on the following? (Responses: 75)

considered their budget to only consist of the site itself. Another thing to note regarding campground expenditures is that participants' budgeted expenditures applies to the respondent's current campground visit and does not account for multiple visits to this or other campgrounds in Minnesota. Other notes gathered from both the in-person survey collection and the collected surveys included that in general, survey respondents were not opposed to spending money on any of the above-mentioned categories, but rather, they had no specific plans to.

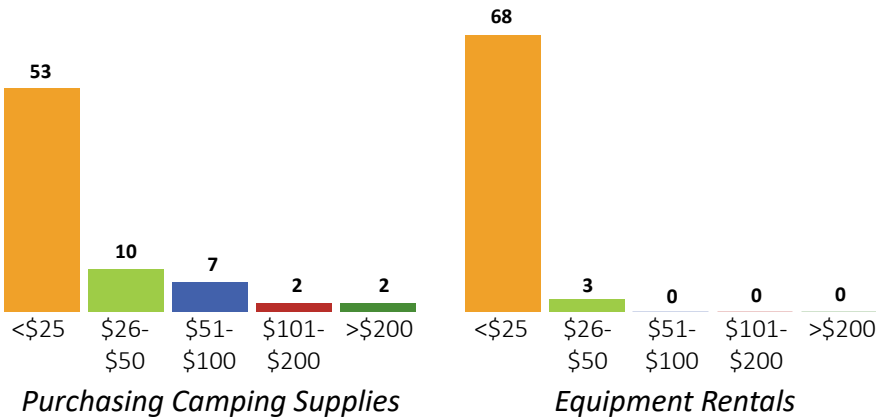

For future analysis, it is encouraged to analyze potential economic impact from an opportunity cost perspective. This entails estimating what experiences, services, and goods that campground users are willing to purchase and matching them to their willingness to spend on those experiences' goods and services.

◀ Past Campground User Analysis

In an attempt to gather more information on campground user experience for each of the campgrounds, a past user survey was conducted for seven of the GMRPTC parks in southwestern Minnesota:

The survey was intended for users who camped or visited the campgrounds between 2019 and 2021; however, most of the respondents noted that their visit to Twin Lakes Park was during the 2022 camping season.

Out of 34 past campground users responses, nine (26.5%) stated that they had visited Twin Lakes Park since the 2019 season.

Out of these nine responses, two indicated that they visited the campground for the day, while seven noted that they camped overnight. All respondents who camped reported that they camped in a camper trailer. The length of stay was 2-3 days for all but one respondent. When asked how likely respondents were to return to these parks in the next two years to camp, three respondents stated that they would like to visit, one respondent stated they planned to reserve a camping site for this season, and one noted that they already reserved a site.

When asked if the respondent had a favorite campground in Minnesota, there was one response for Lake Sarah in Murray County.

Respondents were asked to rate their overall campground experience on a scale of 1-5 with five indicating a perfect experience. Seven respondents rated their visit a “5”, and all other respondents a four, which averaged out to an overall campground rating of 4.0. When asked to rank their overall satisfaction with the campground amenities, the highest ranked

feature was the electric hookups with a 4.6, followed by playgrounds, shelters/picnic tables, campsite accessibility at 4.3 each. Campground staff followed with an overall ranking of 4, and the reservation process, which was the lowest ranked feature, was rated 3.0.

When asked about the activities that the previous campground users participated in at Twin Lakes Park, all nine respondents indicated that they walked on the trails/hiked in the area, followed by fishing with seven responses, and swimming with five responses. Sightseeing, events at campground, and small boating were all identified by three respondents. Other activities noted by previous users to a lesser extent included events at/near the campground, canoing/kayaking, and small boating.

When asked about the activities that previous campground users participated in locally during their stay, two respondents stated that they visited nearby events or activities and nearby bars/restaurants. Nearby parks/trails, retail shopping, and purchasing camping supplies each received one response. No respondents indicated renting equipment for their visit.

Figure 23.

Overall Satisfaction with Campground

Q2: How would you rate your overall experience with the parks you have visited? (Responses: 9)

Past User Demographics

All respondents described themselves as White/Caucasian and identified English as the primary language spoken at home. One respondent reported having a physical, mental, or sensory disability/condition.

Total household incomes before taxes were divided amongst six respondents, with one reporting \$50,000-59,999, \$70,000-\$79,000, \$90,000-99,999 each and two at \$100,000-\$149,000. The majority of respondents had received a higher education, with four of the six having bachelor's degrees, and two with a graduate or professional degree. Most respondents were between the ages of 35-44 (3), while two were 55-64, and one was between 25-34. There were 3 respondents who identified as male and two that identified as female.

Conclusion

The following are recommendations provided based on all survey responses, in-person surveys, and observations while performing the Twin Lakes Park campground analysis in summer 2022. While these recommendations are not comprehensive, they do highlight the top responses and observations.

Campground Recommendations

Twin Lakes Park has an advantage in that it is a newer campground and has newer amenities. Recommendations for additional work based on survey responses includes easy to install repairs and upgrades at the shower/bath houses, including the addition of shelves and benches, and reconfiguring the lights in the showers so they do not turn off while in use.

Nearly all campground visitors partake in some form of water activities, including swimming, fishing, boating, kayaking/canoing and paddle boarding. During spring 2022y, the county applied for funds to purchase paddle boards that could be rented out to users at the park; however, they received them late in the season. Usage during the 2022 season does not give a clear understanding of what the typical usage will be. Additional features that could complement water access, include equipment rentals like canoes, life jackets, etc.

Twin Lakes Park survey respondents had more groups with children. To complement this and the water activities listed above, it is recommended that the campground have items available to purchase that are often needed by these user groups, such as sunblock, water toys, fishing supplies, first aid supplies, etc. Doing this would allow campers to stay on the campground

and avoid traveling for forgotten supplies or items that ran out during their stay. Long-term recommendations include development of a sand swimming beach near the playground.

Tourism Recommendations

Twin Lakes Park is mostly learned about through word-of-mouth from friends/family and local residents. Although not uncommon for campgrounds surveyed this season, Twin Lakes Park is additionally difficult to find for first-time visitors, even when using navigation. This campground would benefit from signage along MN 23, MN 14, and roadways in Florence. Wayfinding signs will help visitors, and will also draw in potential visitors from MN 23 and MN 14, as it is common for travelers to check out parks/campgrounds while driving if they see signage for that park.

Additional marketing is suggested to help attract tourists. The webpage for Twin Lakes Park is one location recommended to be used for marketing purposes. Currently, the webpage has little information. Based on survey respondents' research to learn about campgrounds, checking campground/county websites rated high. By using the webpage as a marketing tool, Twin Lakes Park might see more tourism and visitor usage.

Future Surveys/Studies

Analyzing the awareness of spending opportunities near the campground is recommended. This can be done by asking about specific businesses and what campground users would like to have in the area. Another point of interest to study is the price elasticity

(or willingness of campground users to spend per night) to potentially increase revenues to fund some of the amenities and upgrades noted by survey takers.

While the campground user analysis completed during summer 2022 garnered a good starting point for data on tourism and economic impact, these surveys could not be all encompassing. Further studies and survey work is encouraged as upgrades and additional amenities are installed to better understand how users react to these changes. Also, as awareness in the campground itself increases, it will be beneficial to capture visitor reactions to the campground and their intent to revisit in the future.

Q17 What additional amenities would you like to see at this campground?

Answered: 51 Skipped: 32

#	RESPONSES	DATE
1	Playground playground in small camping area	9/15/2022 9:16 AM
2	signage children at play in between N+S campsites for tar kids have to cross	9/15/2022 9:14 AM
3	groundskeeping Shower/Bathroom Maintance and upgrades a better beach area with water weeds removed. Also benches in shower rooms. Please adjust the time light stays on in shower rooms. If shower w/kids goes off. Then even if move around it don't turn back on. I don't appreciate when people speak like woke idiots.	9/15/2022 9:11 AM
4	water access a place to swim	9/15/2022 9:06 AM
5	Shower/Bathroom Maintance and upgrades water/sewer hook-ups Full hook ups, seat in shower rooms for cloths and to sit and get dressed on	9/11/2022 1:17 PM
6	Shower/Bathroom Maintance and upgrades water/sewer hook-ups Full hookup at most sites, sewer, water and electric. Also a bench to sit in the shower stalls	9/11/2022 1:12 PM
7	Playground playground at second campground	9/6/2022 10:16 AM
8	water/sewer hook-ups water hookups	9/6/2022 10:13 AM
9	Playground a toddler swing at the playground near the campers	9/6/2022 10:11 AM
10	campground layout more sites	9/6/2022 10:06 AM
11	campground layout fish cleaning station	9/6/2022 10:04 AM
12	water/sewer hook-ups sewer	9/6/2022 10:02 AM
13	trails water access More activity, bike trail, letting us lake available for swimming	9/4/2022 1:36 PM
14	water/sewer hook-ups water hookup	8/23/2022 8:56 AM
15	wifi/signal wifi, cable	8/16/2022 7:34 AM
16	water access water and a beach	8/15/2022 9:31 AM
17	Shower/Bathroom Maintance and upgrades shelf for clothes in shower	8/15/2022 9:28 AM
18	na no	8/15/2022 9:26 AM
19	equipment rentals rentals, fishboat canoe/kayaks	8/15/2022 9:24 AM
20	water/sewer hook-ups water and sewer at each campsite	8/15/2022 9:18 AM
21	Shower/Bathroom Maintance and upgrades a clean beach with shower stalls-please install a bench to put excess items on or site and this would be awesome. Also the light goes automatically in shower and my wife doesn't finish showering which makes her fearful. She's not a woman who takes long showers but has had this happen a couple times over the couple years we have came here.	8/15/2022 9:15 AM
22	water/sewer hook-ups water hookups at site	8/10/2022 3:22 PM
23	water/sewer hook-ups water hookups	8/10/2022 3:20 PM
24	water/sewer hook-ups water at each site	8/10/2022 3:05 PM
25	water/sewer hook-ups full hookups	8/10/2022 2:49 PM
26	campground layout shade (lol)	8/10/2022 2:45 PM
27	water/sewer hook-ups water hook ups, east twin dock	8/10/2022 2:42 PM

Twin Lakes Park Campground Survey

28	water/sewer hook-ups wifi/signal wifi, water hook ups	8/10/2022 2:40 PM
29	water/sewer hook-ups water hookups and showers on south side	8/10/2022 2:32 PM
30	equipment rentals paddle boats	8/10/2022 2:27 PM
31	water/sewer hook-ups wifi/signal Water Hookups, WiFi, Sewer Hookups	7/15/2022 8:41 AM
32	water access larger swimming area	7/15/2022 8:31 AM
33	water/sewer hook-ups water hookup at campsite	7/15/2022 8:26 AM
34	equipment rentals Playground Shower/Bathroom Maintance and upgrades Showers on South campground. playground, kayak rentals	7/15/2022 8:21 AM
35	seasonal sites would like seasonal campsite. Love coming here, live only 5 miles away	7/12/2022 8:54 AM
36	campground layout water access water/sewer hook-ups Camp host site with water and sewer...Garvin has that. A Beach! get rid of the cement slab on west twin and put sand!	7/12/2022 8:51 AM
37	campground layout water access water/sewer hook-ups beach with sand for kids!! add new host site between bathroom and shelter so they can see both campgrounds and add water and sewer hookup for host site. Also add more sites by picnic shelter! Spade some bigger trees in!!	7/12/2022 8:47 AM
38	water/sewer hook-ups Water, sewer	7/9/2022 4:32 PM
39	groundskeeping spray for weeds	7/6/2022 2:10 PM
40	water/sewer hook-ups water hookup	7/6/2022 2:06 PM
41	trails Bike Trails	7/6/2022 2:00 PM
42	water/sewer hook-ups water/sewer	7/6/2022 1:56 PM
43	water/sewer hook-ups water hookups	7/6/2022 1:54 PM
44	Swimming Beach	7/6/2022 1:50 PM
45	seasonal sites water access Seasonal Sites Swimming Beach	7/6/2022 1:47 PM
46	equipment rentals kayaks, paddle boats	7/6/2022 1:43 PM
47	equipment rentals Small boat rentals	7/6/2022 1:40 PM
48	groundskeeping Shower/Bathroom Maintance and upgrades trails Another bath house on the south campground, nice walking path for strollers/bikes around entire park or lake, fewer thistles	7/4/2022 12:47 AM
49	water/sewer hook-ups Water hookups and sewer	7/2/2022 5:30 PM
50	water/sewer hook-ups Water and sewer hookups	7/2/2022 2:15 PM
51	water access Swimming Beach visible from campground on West Twin	6/20/2022 7:44 AM
